LATE BULLETIN

WASHINGTON, June 14 (AP)—Bowling over administration opposition, the Republican-dominated senate today passed a bill to revise the reciprocal trade agreements act and extend it one year.

House Ballot on Draft Bill Approved as Rules Panel Votes Measure to Debate

WASHINGTON, June 14 (UP)—The house rules committee today approved the 19-through-25 draft bill, clearing the way for virtually certain passage at this session of congress. The rules committee, last big roadblock in the way of peacetime selective service, abandoned its opposition and voted 6 to 4 to clear the draft for house action. House Republican leaders had insisted that it be cleared.

Some of the members who voted "yes" did so reluctantly. A majority of the committee's membership opposes the peacetime draft. But they voted "yes" at the insistence of the GOP leadership in order to give the full house an opportunity to vote on the measure.

Approved by Senate

The senate already has approved the draft, in slightly different form. Even its opponents conceded it will pass the house easily, once it comes to a vote.

Draft opponents had hoped to the end that rules committee would stand firm against leadership pressure and put the draft bill in the same pigeonhole to which it consigned universal military training earlier in the session.

Vote Not Revealed

Rules committee chairman, Leo E. Allen, R., Ill., declined to reveal the names of those voting for or against the measure.

The bill will come to the floor open to amendment and subject to one motion to send it back to the armed services committee.

The rules committee proposed three hours of general debate, in addition to the hour allowed to debate the rule setting procedure on the measure.

Motion Defeated

Allen said that only one vote was taken on the question of reporting the bill on the floor. However, he said, there was a motion to table the measure—that is, pigeonhole it permanently in the rules committee. This was defeated 7 to 3.

Allen also refused to reveal the voting line-up on that issue. He said that he assumed the measure would come up on the floor tomorrow.

Rep. Forest Harness, R., Ind., probably was one of those who swung the vote to report out the bill. His office had said earlier that although he is opposed to the draft he would vote "yes" to give it a rule so that it might be considered by the house.

Crop-Duster Pilot Killed in Jerome's Third Air Mishap

JEROME, June 14—In the third crash of a crop dusting plane within a week in Jerome county, Murray Edson Gallaher, 39, Coeur d'Alene, lost his life when his plane failed to pull out of a dive and nosed into the ground on the J. R. Pettit ranch northwest of town.

Gallaher was preparing to make a dusting run on the farm when the plane suddenly crashed. No explanation could be learned for the accident.

He was employed by the Fearless Farris Crop Dusting company, Boise. The company owned all three of the planes that have crashed in the area. Crop dusting activities of the company have been stopped because of the lack of planes.

Mr. Gallaher was born March 15, 1909. He is survived by his widow, Mrs. Berdel Gallaher; two sons, Irvin Scott Gallaher and Murray Lee Gallaher, Coeur d'Alene, his father, Charles Gallaher, Vinton, Ia., and two sisters, Mrs. Bud Lyons and Ila Gallaher, Van-Horne, Ia.

The accident was investigated by George Wiley, county coroner. The body is at the Wiley funeral home pending services.

The other plane crashes occurred June 6 and Saturday. Earl Allen Jerome was the pilot of both planes involved in the earlier crashes.

Falling Tree Uproots Fence

The home of Mr. and Mrs. R. G. DeBoard, 283 Washington street south, was only slightly damaged by a tree blown down on it during a heavy windstorm Saturday evening. Part of a fence surrounding their yard was torn up by the roots of the falling tree. No one was at home at the time, and the storm damage was first noticed by their son, Merle DeBoard, when he returned from work. (Staff photo-engraving)

GOP Leaders Put Senate on Overtime As Congress Tries to Finish Business

WASHINGTON, June 14 (AP)—Republican leaders put the senate on an overtime schedule today as congress drove to wind up its business and adjourn next Saturday.

Senator Wherry, Nebr., acting Republican leader, told reporters there will be a night session of the senate tonight.

The chamber is scheduled to vote at 4 p.m. (EST) on legislation to extend the reciprocal trade agreements act.

Wherry said he hopes the senate can pass tonight bills to provide funds for the interior department, the navy and a number of government corporations.

He said debate on the long-range farm bill is scheduled to start tomorrow.

Half a dozen major bills may be brushed into discard in the drive to have congress quit Saturday. Congressional leaders have said privately only a reversal of adjournment plans can save the oleomargarine tax repealer, pay raises for federal employes, the anti-communist tidelands measure, an anti-lynch bill and an anti-poll tax proposal.

While there is no certainty that the 80th congress will close up shop for keeps at the end of the week, that is the target being aimed at by Speaker Martin, R., Mass., and Senator Taft, R., O., each boss of his branch of congress.

Both believe they can make it. And barring a change of mind, when the house and the senate adjourn next Saturday they will quit until next January unless GOP leaders recall the legislators before then. The recall provision is a "string" Martin wants to tie to the adjournment resolution. Without it, only President Truman could reconvene congress.

In addition to the usual departmental money bills which always clog up the closing day's calendar, there are on the "must" docket bills to:

1. Draft men 19 through 25 into the armed services. This has passed the senate and seemed likely to

Truman Raps Congress for Price Delays

LOS ANGELES, June 14 (AP)—President Truman lashed out at the Republican-dominated congress again today and warned that it "still has time" to act to halt rising prices.

The President said congress should pass price controls, housing and other legislation before quitting for the Republican convention at Philadelphia.

"They still have time," Mr. Truman declared. "If they haven't, they ought to take it."

Asks Housing Act

The chief executive also called on congress to enact housing legislation, to restore the labor department to the efficiency to which he said he brought it in his first two years in office, to expand the social security system and to pass a law to assure proper medical care and health protection.

The President addressed a capacity audience of more than 1,000 in the Coconaut grove of the Ambassador hotel, after a parade through Los Angeles streets watched by the largest crowds of his cross-country tour.

"Most Important"

Mr. Truman said it was "most important" that congress should act to restrain prices which had been "on the skyrocket" since July 1946.

At the time price controls were removed, the price index was in the neighborhood of 130 to 133.

It went up immediately by 20 points, he said, and [illegible] "The cost of anything, you buy" including food and clothes, he con-

Winds Uproot Trees; Plane Crash Caused

Heavy winds reaching a velocity up to 60 miles an hour Saturday night whipped through Magic Valley leaving in their wake an airplane crash, uprooted trees, downed power and telephone lines and damaged houses.

Mr. and Mrs. Bus Westcott narrowly escaped serious injury when their plane was caught in the gale-like wind north of Hailey. The couple left Hailey at about 5:30 p.m. on their way to Stanley when the storm struck. They crashed in a wheat field and although the plane was demolished they received only minor cuts and bruises.

Fire fanned by the high winds completely destroyed the home of Nick Shaver about one mile northwest of Buhl. Buhl city firemen answered the call, but were unable to control the blaze. Mr. and Mrs. Shaver were not at home at the time of the fire and no cause has been determined for the blaze.

No Serious Damage

Power and telephone lines in the Twin Falls area weathered the storm in good shape. The storm caused numerous short interruptions of service when falling trees or branches snapped lines or crossed wires. No serious damage was reported.

Power company employes said they had about a half dozen calls on lines damaged by trees. Telephone company line crews reported about the same number. Only a few local lines were affected but long distance lines between Twin Falls, Buhl and Kimberly were out of order for a few hours.

Tree Hits Home

Slight damage was caused to the Bruce H. McMillan residence east of town when a willow tree was blown over on the house.

Winds reached up to 60 miles an hour in the Burley and Rupert area uprooted several trees, disrupted telephone service and blew shingles off many homes. No serious damage was reported.

A tree in the Jerome city park was uprooted and large limbs were blown off many trees throughout town.

Minor damage to trees was reported for Shoshone, Hagerman, Glenns Ferry and Filer.

A door at the Tester Motor company, Gooding, was blown off by the winds.

Thousands of limbs, ranging from small twigs to good-sized branches, were whipped from area trees by the force of the wind.

Bond Plan Is Urged to Pay Projects' Cost

WASHINGTON, June 14 (AP)—Senator Cain, R., Wash., today offered a bill to authorize federal bonds to raise funds for 49 reclamation projects in 17 western states.

The proposal would make unnecessary any federal appropriations.

He told the senate that $3,461,294,492 is needed to finish the projects. The bill would authorize issuance of bonds for a total of $3,750,000,000. More bonds could be issued as new projects are authorized.

Opportunity for Profit

Cain said this would give eastern investors an opportunity to profit directly from western reclamation and added:

"It is a chance for the west to obtain the projects quicker, to prove we're not getting our share of 'something-for-nothing,' to further prove the self-liquidating nature of the projects and to graciously let the east have a chance to invest in the growing west."

Interest could not exceed 3½ per cent per annum, payable entirely from power revenues.

Go to Public

Bonds would be sold yearly to the public in an amount decided by the secretary of interior as required to meet the year's expense of each project.

The bonds would be retired as they mature. They would be a lien against earnings of the project until paid off, but the federal government would not be liable for payment. All of the projects are self-liquidating, Cain said.

Cuts Out Appropriation

The legislation, Cain added, would make unnecessary any future federal appropriations for the projects.

Construction work would be carried on by private contractors under contracts with the bureau of reclamation.

"In my own state of Washington alone," Cain said, "new industries, started since 1940 because of the availability of hydro-electric power, have paid $300,000,000 in federal taxes, more than is invested in the Columbia basin to date.

Need More Funds

"We need more funds to speed up construction in order to catch up with the demand for electric power

Flood's Third Crest Highest for Portland

PORTLAND, Ore., June 14 (UP)—The Columbia river hit its highest crest since 1894 here today, rising three inches over the first spring peak which wrecked Vanport city on Memorial day two weeks ago.

Volunteers and troops doubled their efforts to save dikes protecting the cities of Kelso and Longview on the Washington side and Scappoose on the Oregon side.

Army engineers said the levees were in "critical" condition after being waterlogged for almost a month. In some places the river lapped within 18 inches of the levee tops.

The emergency crews were cheered, however, by news that the river was falling along a 600-mile stretch upstream from here.

Stream Drops 12 Inches

The stream fell a foot at Trail, B. C., and six inches in central Washington. The weather bureau predicted that the river would subside at the rate of six inches a day for the next three weeks.

In northeast Portland, Columbia slough waters threatening the remaining Campbell road dike fell .02 feet in two hours last night. It was the first drop since the river ripped through a railroad fill to wipe out the city of Vanport.

The flood surged through two high fills, taking most of Vanport's dwellings along. Friday they plunged through a fourth barrier, inundating 2,000 homes, four golf courses, and a pickle factory.

Last Plant Protection

The Campbell road fill was the last land barrier protecting the $43,000,000 Reynolds aluminum plant and engineers and civilian volunteers worked hourly to bolster the dike.

Court's Order Blocks Threat Of Maritimers

NEW YORK, June 14 (UP)—A restraining order to prevent a national shipping strike was issued today in federal court here.

Three maritime unions and 54 shipping companies were directed to bargain collectively in a restraining order issued by Federal Judge John M. Clancy.

The restraining orders expires June 24 unless it is extended.

In issuing the order [illegible] set the federal gov[illegible] petition for a preliminary [illegible] to prevent the tieup for [illegible] Friday.

The request filed in federal court asked an order calling for the shipping companies and the National Maritime union, the Marine Engineers Beneficial association, and the American Radio association to bargain collectively in good faith under the Taft-Hartley act.

ATOMIC THREAT ENDED

OAK RIDGE, Tenn., June 14 (UP)—The threat of a possible work stoppage at the vital Oak Ridge atomic laboratories was dissolved today with the settlement of a wage dispute after nearly four months of negotiations.

At one point in the lengthy controversy the government averted a walkout by exercising for the first time its emergency powers under the Taft-Hartley act to obtain a no-strike injunction to protect the national interest.

Six Are Hurt In Crashes; 3 Drivers Cited

Six persons were injured slightly and three drivers were cited into justice court as a result of a series of automobile accidents over the week-end. A number of utility poles were knocked down in the accident.

Cut to the bone was the right leg of Sylvia Stockton, 11, daughter of Mr. and Mrs. Ray L. Stockton, Jerome. Injured to a lesser extent in the same accident—which occurred at 12:40 p. m. Sunday one mile east of Twin Falls on Falls avenue—were Stockton's mother, Rose Gibbons, Weston, and Louise Stockton, Jerome.

Hit Broadside

The accident was investigated by sheriff's officers and state police who said Stockton's 1929 sedan was hit broadside in the intersection of Falls avenue and a county road by a 1947 station wagon driven by Gino Francesconi, Soda Springs.

Francesconi was fined $15 and $3 costs in justice court Monday on a charge of failure to yield the right of way.

Officers said that exclusive of drivers there were seven passengers in the station wagon and five in the sedan. Damage was estimated at $100 to the station wagon and $150 to the sedan.

Ed Musgrave, who lives nearby, applied a tourniquet to Miss Stockton's leg, after which she was taken to the hospital to have the wound stitched.

Pair Injured

In an accident one mile north of Murtaugh on U. S. highway 30 at 10:15 p. m. Saturday, two elderly persons were bruised severely and cut when thrown to the pavement as a result of an automobile accident.

GOP Contest Is Moving on Conclave Site

By LYLE C. WILSON
UP Political Writer

PHILADELPHIA, June 14—The Republican presidential contest moved on to Philadelphia today where leading candidates for the party's 1948 grand prize set up convention strategy headquarters.

The Republican national convention will be called to order one week from today. In the same hall the late FDR won a triumphant second term nomination in 1936 and the late Wendell Willkie stampeded the GOP in 1940. Neither party has been back here since.

All hands including the candidates agree this is an open convention. Four and perhaps many more ballots will be cast before the GOP names its man of the year.

Rep. Clarence J. Brown, R., O., beefy and confident, arrived to open Sen. Robert A. Taft's headquarters in the Benjamin Franklin hotel. Herbert Brownell, a soft spoken Nebraska-born New York lawyer, flung open doors of the Gov. Thomas E. Dewey's high command at the Bellevue-Stratford. Harold E. Stassen's campaign workers beat both of them to the punch. A Stassen-for-Presi-

Senate Panel Boosts Funds For Projects

WASHINGTON, June 14 (AP)—The senate appropriations committee put $2,000,000 in the interior department's money bill to start construction of the Palisades, Ida., irrigation project.

If the provision is finally approved, the reclamation bureau could make contracts up to that amount during the year starting July 1. Previous authorizations would bring the total available for the project to $3,750,000.

Construction Delayed

Senator Dworshak, R., Ida., said actual construction cannot be started until agreements have been reached on conservation of winter flow and an allocation of water in the Palisades reservoir.

Senate amendments also would authorize the Bonneville power administration to make contracts up to $161,000 for the Sandpoint-Bonners Ferry transmission lines in northern Idaho. The bill for the current year authorized BPA to contract for $480,000 worth of materials for this purpose.

The committee said in its report that no other transmission lines have been authorized in Idaho.

North Side Fund Upped

The senate group also increased the construction appropriation for the Payette division of the Boise project by $250,000 to a total of $1,650,000 and the preconstruction fund for the Minidoka north side project by $70,000 to $170,000.

It increased the operation and maintenance allocation for the Boise project $20,000 to $230,000 and added $105,000 for the Minidoka project, making a total of $500,000 for operation, maintenance and rehabilitation of the project's commercial system.

DELAWARE PARTY SET

WILMINGTON, Del., June 14 (AP)—The Progressive party of Delaware, backing Henry A. Wallace for president, was organized here yesterday. Sen. Glen H. Taylor, Ida., Wallace's running mate, was the principal speaker.

Appeals Court Backs Decree Against Eisler

WASHINGTON, June 14 (UP)—The U.S. court of appeals today upheld by a 2 to 1 vote the contempt of congress conviction of Gerhart Eisler, alleged communist secret agent in the United States.

Eisler was cited for contempt last year when he refused to be sworn in for testimony before the house un-American activities committee. At the time Eisler insisted on reading a statement before taking the witness stand.

FBI Director J. Edgar Hoover has called the German-born Eisler the number one international communist agent in the United States.

Passport Fraud

Eisler also is under conviction of passport fraud. He has been sentenced to serve one to three years imprisonment. The government also has begun deportation proceedings against Eisler. These have been delayed by court action taken by Eisler.

Justice Bennett Champ Clark, writing the majority opinion, said "our review of the record in this case has failed to disclose compelling reasons for reversing the judgment of the district court."

Fined $1,000, Sentenced

Eisler was fined $1,000 and sentenced to one year in jail after his trial in federal district court here before Judge Alexander Holtzoff.

At the time of the trial Holtzhoff overruled a demand by Eisler that he disqualify himself for prejudice and bias.

In his appeal, Eisler again raised this charge. But Justice Clark said that Eisler's claim of hostility was unjustified. Justice James M. Proctor agreed with Clark and Justice E. Barrett Prettyman dissented.

Quiet Is Brought Into Palestine by U.N. Truce Rule

CAIRO, June 14 (AP)—The Arab-Jewish truce was reported to have brought quiet to Palestine at last today. The United Nations mediator was on Rhodes setting up headquarters for negotiations toward lasting peace.

Both Jews and Syrians charged new violations in northern Palestine yesterday of the four-week armistice that began Friday morning under U. N. sponsorship. The Jews said they had been forced to fight back. The Syrians threatened to do so.

But two truce observers, United States naval officers, got back to Tel Aviv from the northern front last night and reported all quiet there. A Jewish communique said the fighting stopped yesterday morning.

The Jews welcomed 420 immigrants to Tel Aviv last night. They got their first food convey in over seven weeks through from there to Jerusalem yesterday, using a bypass built around Arab roadblocks. Both moves created problems for U. N. truce checkers.

Committee Okays 'Anti-Lynch' Act

WASHINGTON, June 14 (AP)—The senate judiciary committee today approved 10 to 3, a bill to make lynching a federal crime. A southern opponent promptly promised to "fight it to the bitter end."

The bill, conceded only a remote chance of senate passage during the closing week of this session, would provide criminal and civil penalties against members of a lynch mob.

Senator Ferguson, R., Mich., chief committee backer of the legislation, still held out a hope for time on the jammed senate schedule to consider it. Southern Democrats have promised to try to talk to death any civil rights legislation.

Red Chief Takes Czech Presidency

PRAGUE, June 14 (AP)—Czechoslovakia's first communist president was elected and took office today.

Premier Klement Gottwald was elected by a show of 296 hands in a public parliamentary election held in 16th century Vladislavsky hall, and was hailed by Speaker Oldrich John as "a socialist president in a socialist country."

Top Court Tosses Out Far-Reaching GI Insurance Bid

WASHINGTON, June 14 (UP)—The supreme court today unanimously threw out a far-reaching veterans life insurance claim that would have boosted the cost of the government GI insurance program by billions of dollars.

The case concerned the method of paying insurance claims. It has given the veterans administration a bad case of jitters for the past year.

The agency estimated last fall that if the claim were upheld the government's potential liability on policies outstanding would go up from $35,000,000,000 to at least $97,000,000,000.

The veterans administration said the high court ruling in its favor will speed up in it plan to distribute GI insurance dividends from surplus reserves. The case has been a factor in holding up such distribution. If the government had lost the case, all surplus reserves would have been wiped out.

House Overrides Veto on Measure

WASHINGTON, June 14 (UP)—The house today quickly overrode President Truman's veto of a bill which would exclude from social security benefits some 750,000 salesmen and other employees paid on a commission basis.

The vote to override was 297 to 75. This was 49 votes more than the necessary two-thirds majority needed.

The senate now must act on the veto. A two-thirds majority of both houses is necessary to override a veto. Otherwise it sticks.

The house acted within 10 minutes after Mr. Truman's veto message was read.

Shirley Samuel Is Chosen Queen for Buhl Rodeo Event

BUHL, June 14—Shirley Samuel was selected queen to reign over the second annual night Buhl rodeo Thursday, Friday and Saturday during a western dance sponsored by the rodeo committee.

Miss Samuel was sponsored by the Buhl Rotary club. Other contestants for the title of queen were Patty Winans, Katherine Reese and Barbara Martin.

She was presented an orchid corsage by the rodeo committee during the ceremonies.

A rodeo parade is scheduled at 2:30 p. m. Thursday and will include several organizations and riding clubs.

Grand entry for the rodeo will start at 8 p. m. Thursday when the three-day event gets under way.

Area Candidates Slow to File Petitions for Primary Ballot

Two nominating petitions for county offices have been filed in Cassia county and three for offices in Blaine county. With the exception of Twin Falls county, no candidates have filed for offices in the other Magic Valley counties.

Mrs. Jeannette W. Chamberlain, Burley, incumbent Cassia county treasurer, has filed a petition for reelection on the Republican ticket. Her petition was signed by Dean Kloepfer, A. H. Nielson, Dale Erickson, Arlene Kloepfer, Ridd Solomon, Reed Starley, George Klink, M. W. Crouch and L. V. Morgan.

In the other Cassia county nomination filing, Probte Judge Henry W. Tucker has filed for reelection on the Democratic ballot. His petition was signed by W. L. Belfield, W. W. Williams, Kales Lowe, Nettie Tucker, Forrester Talbert, W. W. Owens, Sterling Adams and Zella Sohm.

Probate Judge George A. McLeod has filed a Democratic nomination petition for reelection in Blaine county. He has held the position for the past 14 years.

O. L. Justeson, Carey, has filed a petition for the nomination as commissioner for the first district of Blaine county on the Democratic ticket.

Mrs. Dorothy L. Povey, Hailey, incumbent Democratic county treasurer of Blaine county, has filed a nomination petition for reelection.

"Mistake"

BOISE, June 14 (UP)—Two Republican state representatives, Jess B. Hawley, Boise, and John Hohnhorst, Jerome, told a Young Republican meeting here that legalized slot machines in Idaho is a mistake.

They said that if they were to vote on the issue again they would vote "no." The representatives oppose legalized slot machines on a moral basis. They said the machines had caused a lot of misery and "probably broke some homes" in the big cities of the state.

Meat Supply Not Due for Declines

CHICAGO, June 14 (UP)—Pork and beef will be as plentiful during the next three months as they were during the past three, an American Meat Institute official said today.

R. J. Eggert, associate director of the AMI marketing department, said that retail meat supplies during July, August and September will equal those of April, May and June. He said the forecast was "contrary to most earlier predictions."

Eggert made the prediction at a packing company luncheon.

Quiet Move Started to Switch U.N. Headquarters From U. S.

LAKE SUCCESS, June 14 (AP)—A move is quietly in the making here to switch United Nations headquarters out of the United States, it was learned today.

Those nations supporting the idea are taking no open steps and are laying the ground work carefully. The drive may emerge as early as this fall at the Paris assembly. The substitute site probably would be Geneva.

Congressional approval of a $65,000,000 loan to the U.N. for building Manhattan skyscraper headquarters would be a blow to those hopes for a switch. But delegates familiar with the situation say that even granting of the loan will not assure the permanent headquarters for New York City.

Among others, the Arab states are understood to want headquarters in Europe, Egypt, Syria, Saudi Arabia, Iraq and Lebanon, along with Australia and El Salvador, voted against New York when the assembly made the selection on Dec. 14, 1946. At that time the Arabs said their ballots were a protest against New York and not other United States cities.

However, they are said to be convinced now that no location in the United States is suitable. Bitterness over the Zionist influence is the primary factor.

The two biggest question marks in the maneuvering are Britain and Russia.

Britain originally wanted Europe, but gave in and under certain conditions might switch back to support of Geneva.

Know-How

NEW YORK, June 14 (AP)—Kenneth Leibman, aged 2, today demonstrated, involuntarily, that youth knows how to relax.

Playing with his twin brother, Stephen, in their sixth floor apartment, Kenneth climbed to a windowsill and fell through a small panel opening in a screen.

Landing on a grassy plot six floors below, he jumped up and didn't even cry. As he started to run, persons who saw him fall held him until an ambulance arrived and took him to Fordham hospital.

Physicians said there were no apparent injuries.

Valley Roads To Be Fixed; Robins Avers

HOLLISTER, June 14—Gov. C. A. Robins has assured the Hollister Grange the state is doing everything possible to improve road conditions in the area.

The assurance came in a letter from the governor in answer to a resolution recently passed by the Grange calling for immediate improvement in U. S. highway 93 between Twin Falls and the Nevada state line.

Flow Contest

During the last regular meeting of the group, Dale Runkel gave a report on the traveling plow contest sponsored by area Granges. He urged Grangers to attend the next contest scheduled for 9 p.m. June 25 at the Mountain Rock Grange.

Mrs. Betty Roberts told the group the state Grange has adopted a song written by Mrs. Elmo Farrer as the official Grange March. The song was written originally for the Hollister Grange drill team.

Films on fishing in Norway and the cooperative dairy system were shown by Frank Eastman, a representative of the Jerome Cooperative creamery.

Guests Listed

Guests at the meeting were Mr. and Mrs. Eastman, Twin Falls; Mr. and Mrs. J. E. Pohlman, Long Beach, Calif.; Mr. and Mrs. Al Byrnes, Moscow, and Mr. and Mrs. Kramer, Ogden, Utah.

Refreshments were served by Bruce Runkel, Mary Runkel, Jeeta Runkel and Julia Runkel.

Former Resident Notes Change in Residential Area

There has been only minor change in the Twin Falls business district during the last 1 years, but expansion of the residential areas is plain, according to J. C. Lykins.

Mr. and Mrs. Lykins, Fort Hueneme, Calif., are making their first real visit to Twin Falls in 30 years. Former residents here, they moved away 30 years ago. Lykins said his last previous visit to Twin Falls, some 11 years ago, was for one day. Now he and his wife are here on a 30-day fishing trip.

Lykins helped build the present Twin Falls postoffice back in 1918. They are visiting Mr. and Mrs. Irven Young, Twin Falls, and Mr. and Mrs. E. H. Berry, Rogerson. Mrs. Lykins, Mrs. Young and Mrs. Berry are sisters.

Leopold Low, 85, Dies at Hospital

BUHL, June 14—Leopold Low, 85, route 4, Buhl, died at 12:15 a.m. Sunday at the Twin Falls county hospital following a month's illness.

He was born July 17, 1862, in Germany and came to the United States in 1892. He moved to Buhl in 1911 from Yakima, Wash., and was engaged in farming until 1938 when he retired.

He is survived by four nephews, Otto Low, Buhl; Carl Low, Chicago, Ill.; Hans Low, Los Angeles, Calif., and Erwin Low, Santa Rosa, Calif.

Funeral services will be held at 2 p.m. Wednesday in the Albertson funeral home chapel with the Rev. Max Greenlee officiating. Burial will be made in the Buhl cemetery.

Wilburn P. Cox Is Paid Final Honor

Funeral services for Wilbur P. Cox were held at 10:30 a. m. Monday at the White mortuary chapel with the Rev. H. B. Hughes of the Nazarene church as officiating clergyman.

Donald Edwards sang a solo, Mrs. Royal Hyers gave a vocal number and Mrs. Edwards joined her husband in a duet.

The local American Legion post presented the military ritual.

The body is being sent to Denver, Colo., for interment.

The Hospital

Emergency beds only were available Monday at the Twin Falls county hospital. Visiting hours are from 2 to 4 to 7 to 8 p. m.

ADMITTED

and furnish water to otherwise rich land waiting for congressional appropriations before starting to produce. There is a list of industries as long as a man awaiting only the electricity to begin operations in the west.

Cain said his proposal would end the yearly scramble for funds in the interior department appropriation bill for reclamation, irrigation and power projects.

No Other Projects

He said none of the money raised by sale of bonds would be issued to repay the government for money already spent on the projects. He added that no new projects could be brought under his proposal.

He said money previously spent on the projects would "in effect be written off the books."

The Pacific northwest," Cain said, "does not want a Tennessee valley authority.

Marketing Before TVA

"We in the Pacific northwest were marketing public power before the TVA was born in its nightmare and was discovered that the cheaper you make electricity the richer become the returns.

"We certainly are not going to let a bureau such as the TVA run our region by absentee ideology."

The projects for which the fund would be available, their locations, and the estimated cost to complete are:

Boise-Anderson ranch, $11,440,712; Boise - Payette, $6,428,036; Boise drainage, $143,523; Hungry Horse, Flathead, $2,200,000; Columbia basin, $1,638,000; Minidoka, $4,310,494; Ogden river, $338,969; Owyhee, $374,563; Palisades, $52,981,152; Provo river, $12,915,647; Newton, Utah, $141,450; Scofield, Utah, $55,526.

Area Horses Win At Show in Boise

BOISE, June 14 (AP)—An American saddler owned by Marilyn Flint of Salt Lake City took top honors in the five-gaited grand championship at the conclusion of the second annual Idaho equestrians horse show.

Flint stables' Stonewall Glamour, the winner, was ridden by Buck Field in the show.

Barbara Worth of Sacramento, Calif., won top honors in the open jumper class. She rides the cup winning last year by Ivy Springer, Salt Lake City.

Other class winners included:

Halter class—Quarter horse: Palo Alto Belle, owned by Dr. Fred Barrett, Gooding.

Pine harness class, open—Miss Hikia, owned by Joseph W. Grant, Salt Lake City.

Tennessee walking class—Lady Merry Legs and Ball o' Fire, owned by Duffy Reed, Twin Falls.

Spud Price Help Terms Explained

To receive potato price support, the producer must be an operator, landlord, tenant, or sharecropper entitled to share the proceeds from the 1948 harvest, explained the Twin Falls Agricultural Conservation association Monday.

The association added that planting within the individual farm acreage goal must be set by the group. Any planting exceeding the goal set for any will render the producer ineligible for potato price support.

Producers wanting price support must apply for eligibility, agree to association terms, and pay an estimated eligibility fee.

An eligibility fee of one cent will be collected up to July 15, thereafter until Sept 1, the fee will be two cents.

Infant Dies

Today's Cars Last Longer

The average car in 1948 travels, in one year, over twice as far as did the automobiles in 1925. But the average car scrapped this year will have lasted over twice as long as the car scrapped 23 years ago. The chart, based on figures from the Automobile Manufacturers' association, shows how the usage and life of cars has increased over the years.

tiple bruises and cuts when a car driven by Mrs. Wayne Bell, Paul, hit the rear of their auto and knocked them both to the pavement during the height of the wind and rain squall, according to state police.

Riding With Son

The Clawsons were riding in a car driven by their son, W. H. Clawson, Murtaugh, and accompanied by his wife and son, Lloyd.

Mrs. Bell told police she did not see the Clawson car pull out of a service station in front of her in time to avert the collision. After hitting the auto, police said Mrs. Bell's car careened 100 feet off the highway and hit a church.

Damages of $300 were estimated for the front of the Bell car and $20 for the church. No estimate was made of damages to the Clawson vehicle.

Child Shaken

Following an accident investigated by state police Friday on the Clover road near Filer, Steven Sharp, 4-month-old son of Mr. and Mrs. Francis Sharp, Filer, was held for observation of possible internal injuries. He was released after several hours when physicians determined he was only badly shaken up.

The baby was in the lap of the aunt of a car driven by Mrs. Audrey B. Schroeder, Filer, when it collided with a vehicle driven by John Bryant, Twin Falls, according to state police.

Drunken Driving

After investigating an accident at 8 p.m. Sunday two miles east of Twin Falls on U. S. highway 30, sheriff's officers and state police cited Leon J. Harris, Ketchum, into justice court on a charge of driving while under the influence of intoxicating liquor. He was fined $150 and $3 costs Monday, and his driver's license was taken.

Officers said Harris was traveling south on a county road and failed to stop before entering the main highway. His 1947 sedan crashed into an eastbound 1935 coupe driven by Aaron V. Adamson, 118 Blue Lakes boulevard, who tried to avoid the collision by turning into the sideroad.

Poles Downed

Damage was estimated at $350 to the Adamson coupe and $450 to the Harris sedan. Knocked down in the accident were two utility poles and a stop sign.

A report on driving charge was filed against Glen E. Musty, Twin Falls, who is alleged to have fallen asleep and driven off the highway into a utility pole. State police estimated about $200 damage was done to his 1937 coupe.

The utility pole was snapped and power service temporarily interrupted. The mishap occurred at 4:45 a.m. Monday about two miles east of Twin Falls on U. S. highway 30.

Impressed

Navy Lieut. R. G. Hoffman, Salt Lake City recruiting depot, was impressed Monday by Magic Valley scenery.

"Magic Valley scenery certainly meets every claim," he declared. He visited Twin Falls while on a tour of navy recruiting stations in Idaho.

While in the area, Hoffman took pictures of Shoshone falls, Twin falls and the Perrine Memorial bridge.

Connie Mack Gets Tough: Fires Potter

PHILADELPHIA, June 14 (UP) — Nelson Potter, 36-year-old veteran relief pitcher, was fired by Connie Mack, manager of the Philadelphia Athletics yesterday.

Potter, who holds only 40 days to become a 10-year man, was discharged after losing the first game of the Athletics' doubleheader with the St. Louis Browns yesterday.

The 36-year-old veteran relieved Lou Brissie in the eighth inning with a 5-2 lead, the bases loaded and none out. He walked one and gave up three hits, which, complicated by Ray Coleman's error, permitted the Browns to win, 7-5.

"If that's the best you can do, get your check," Mack reportedly told Potter as he headed for the showers.

The Athletics left for Pittsburgh last night and Potter took another train for his home at Chicago.

$25 Fines Levied In Court Monday

Fines of $25 and $3 costs were imposed in city court Monday on Noah Pruitt, charged with disturbing the peace; and on C. A. Shadduck and Fred Cuthahits, on charges of intoxication.

A fine of $15 and $3 costs was paid by Ernest Deaner on a charge of disturbing the peace. Arthur Alldritt and Lloyd McKenzie were each fined $20 on charges of intoxication.

Arrested on charges of intoxication but released by the court Monday to leave town or go to work were Tiburcio Benicio Martinez and Francisco Encinas.

Difference Is Split

WASHINGTON, June 14 (AP)—The house voted today to split a $75,000,000 difference with the senate over the agricultural conservation program for the 1949 crop year.

It approved, 197 to 179, authorization for a $262,500,000 program to encourage good farming practices. Money to finance it will be carried in the 1950 agriculture department appropriation bill.

Flood's Third Crest Highest For Portland

(From Page One)

funnel and sack spring and fall wheat crops rolled up behind the dike and was used to speed up sandbag production to 240,000 sacks per day.

Giant pipe-line dredges which normally keep the river channel clear were called in to pump silt and sand from the Columbia's bottom up onto the dikes.

Dike Sloughing Damages

At the peak crest, army engineers worries were half over. With the drop in flood waters came the danger of sloughing dikes, carried down with the shrinking Columbia.

Rigorous patrols were organized to inspect dikes around the clock for the next two weeks.

The flood which hit Washington, Montana, Idaho, Oregon and Canada took 15 lives. The Red Cross counted 20 persons as missing in the Vanport city disaster. Only five bodies have been recovered from the drowned city.

Appeal for Funds

Relief agencies sent out an appeal for funds with which to rehabilitate the 40,000 refugees driven from their homes in northwest valley communities.

The Red Cross said it had only $500,000 of its allocation left to carry on the work and the Salvation army said it would be forced to halt relief work entirely unless it received more funds.

GOP Contest Is Moving on Conclave Site

(From Page One)

dent headquarters was opened on Walnut street last week.

It is going to be a great show. The welcome - Republicans banners are beginning to flutter in the streets. Hotel keepers have thoughtfully advised their guests that single rooms which cost them $5 or $6 a day this week will jump to $12 the day the convention begins. For $10 or a bit more, elaborate meal in the swank but no elaborate meal in the swankier spots, accompanied by a couple of drinks. There will be plenty of taxi fares except when you need one.

California, Illinois, Indiana, Massachusetts, New Jersey and Pennsylvania are key states in this Republican contest. They are favorite son states and together will cast 201 votes.

Break to Determine

The candidate to which some or all of those states makes a break somewhere during the balloting is very likely to be the Republican nominee for President this year. Dispute in the Pennsylvania organization may mean that the 73 delegates from this state will scatter their fire and fail to be a real factor in electing the party's nominee.

None of the candidates is predicting a first ballot nomination. The first two or three roll calls merely will disclose the comparative first choice strength of leading candidates. After roll call No. 3 the chips will be down. In the 92 years since the Republicans first nominated a candidate for President there have been only nine conventions which required more than one ballot to name the man.

Lodge Heads Platform Panel

Sen. Henry Cabot Lodge of Massachusetts will be here Thursday to preside over informal meetings of the platform committee. Lodge has been designated chairman subject to action by the committee itself after the convention has met, organized and given the group official status.

Addresses of the temporary and permanent chairman are scheduled for Monday and Tuesday, respectively, next week. Lodge is to present the platform for adoption Wednesday morning. Nominating speeches will start Wednesday afternoon or evening and the first ballot should come the following day.

Schwellenbach Is Given Last Honor

SEATTLE, June 14 (AP)—Longtime associates in civilian and political life paid their final tribute to Secretary of Labor Lewis B. Schwellenbach at funeral services here Saturday. Burial followed in Washington cemetery.

Hundreds of persons filed past the casket at Trinity Episcopal church as the 53-year-old cabinet member lay in state for six hours.

A funeral plane arrived from Washington Friday night with the body of the presidential adviser who once sold newspapers on the streets of Spokane.

The labor secretary died Thursday of a heart ailment.

VISIT IN UTAH

DECLO, June 14 — Mrs. August Qunnstrom and daughters are visiting friends in Salt Lake City, Utah.

Not So High?

SALT LAKE CITY, June 14, (AP)—James A. Hooper, president of the National Livestock Producers' association, now has an answer for the many complaints he receives concerning the high price of meat.

He merely points to a news dispatch quoting the department of commerce to the effect Americans spent $9,600,000,000 last year for liquor.

"During the same year only $9,-316,803,000 was spent for meat animals in this country," he says.

"Maybe our meat prices aren't so hich."

THE UNIVERSAL 'Jeep'

THE 4-WHEEL-DRIVE UNIVERSAL "JEEP" works all day, all year . . . in the field as a tractor . . . on or off the road for hauling and towing. Comfortable and easy to operate, it lets you stay on the job for hours without becoming exhausted. When work in the field is done, the "Jeep" is ready to tackle almost any other job—hauling produce, perhaps, towing a cattle trailer or helping out in scores of ways. As a mobile power unit, the "Jeep" with power take-off can operate virtually any piece of power-driven farm machinery. Come in and see the "Jeep" now!

6 Major Bills To Be Left in Solons' Haste

(From Page One)

clear the house rules committee today.

The main difference in the views of the two branches is an apparent house desire to shift to President Truman the responsibility for ordering actual inductions.

Housing Measure

2. Set up a housing program. The senate has passed the Taft-Ellender-Wagner bill, with a public housing section that the house leadership doesn't like.

The house banking committee, upsetting its GOP leadership, has approved the senate plan but still needs rules committee clearance before it can take the bill to the house floor.

3. Extend the reciprocal trade agreements act by which the United States has been making tariff-cutting contracts with foreign governments.

The administration wants a straightaway three-year extension.

Finance Aid Program

4. Finance the foreign-aid program.

The house cut the European-Asiatic economic help fund upwards of a billion dollars. The senate appropriations committee has voted to restore most of the house cuts, and the senate is expected to follow its lead.

In addition to these four bills, congress must approve appropriations for the year beginning July 1 for a number of federal agencies, including the army and the navy. Except for a final "catch-all" bill, these measures have cleared the house and either are on the senate docket or are in senate-house conference committees working out compromise figures.

The usual number of non-controversial measures will slip through before adjournment.

Area Youths Win In FFA Judging

MOSCOW, June 14 (UP)—Midway, Nampa, Jerome, Parma and Rigby high school judging teams won top honors at the annual Future Farmer contests here last week.

THREATS WON'T WORK

There are still a few labor leaders who can't seem to realize that militant class consciousness fits awkwardly in the American democratic system. Among them must be included the heads of the 21 railroad unions who have imperiously demanded that the government nationalize the country's rail lines.

One of them, A. J. Glover, president of the switchmen's union, said: "If the government is going to coerce us—and prevent us from striking—they should coerce management, too. We're getting a rotten deal."

David B. Robertson, president of the firemen, admitted that a nationwide strike does nobody any good. "But," he asked, "what else can we do to get someone to come over to our camp and listen to our side of the argument?"

Such remarks will not win the unions much public support. A great many people know that the government has "coerced" railroad management on occasion.

Railroads have waited as much as a year for the ICC to raise rates, after labor and other costs have gone up, before they could operate at a profit. They must get ICC approval before they can abandon an unprofitable line and property—and sometimes there is a stiff fight from municipalities that don't want to lose the tax revenue from the railroad.

But they keep on operating, or lose their charter. A railroad can't say, "We're closing down and going home until we get what we want," and then resume operation when it gets a higher rate. That would be against the public interest.

If Mr. Robertson thinks that a nationwide strike would bring people into the unions' camp and win sympathy for their side of the argument, he shows an amazing ignorance of human reactions and public relations—especially since several unions have accepted the government terms he wants to strike against.

Mr. Robertson might contemplate the general popularity of John L. Lewis. Then he might think how popular the railroad unions would be if they put the quick freeze on rail transportation, thus stopping the nation's commerce and the income of millions, endangering the nation's health, blocking the American lifeline for European recovery, and injuring the nation's prestige abroad.

Mr. Lewis and his UMW recently hired a new crew of public relations men in an attempt to recapture some of John L.'s vanished glamor. James C. Petrillo and his musicians' union recently put out a book of text and cartoons with a gay-colored cover, defending his ban on recordings. Maybe the railroad unions should get themselves some new press agents, too.

The press agents might point out you can't sell anything in this country successfully, not even a point of view, unless you first have gained public interest, sympathy and acceptance. And that you don't gain them by threatening the public with inconvenience, frustration, shortage of food and loss of money.

MAGIC MOUNTAIN GROWS

During all this hot weather it's refreshing news that the capacity of Magic mountain facilities will be increased to 1,300 skiers per hour this coming winter season.

A. E. Briggs, Minidoka forest supervisor, has outlined to the Twin Falls youth and recreation council the planned improvements which include installation of an overhead T-bar lift, a rope tow on Pike mountain, a similar tow for the beginners' course, a larger ski shelter, improved sanitation facilities and an expansion of parking space.

All this should be good news to the people of Magic Valley who gradually are coming to the realization that skiing in the Magic mountain area is becoming increasingly popular—to the extent that soon it may be gaining wide recognition. It shows every indication of becoming one of the major developments in this section of Idaho.

It's good news also that the forest service permit for the Magic mountain area will be rewritten and reissued to Claude Jones who owns and operates the present ski facilities in that vicinity. Jones played an important part in pioneering Magic mountain as a ski resort, for which he deserves no little amount of credit.

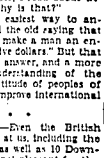

PRICELESS

We think that the 20-year-old Chinese girl who is never hungry should come to the United States. If a divorcee with two children can offer herself as a wife for $10,000, and get plenty of takers, this meatless wonder from China ought to be able to demand a cool million.

The experiment employed by county officials in measuring hundreds of bottles of confiscated liquor has established proof of one important fact which will go down in scientific history: You can funnel whisky into a vinegar jug without much difficulty, but to get it out is quite a gurgle.

TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—"Although the United States has spent millions of dollars in helping other nations since the end of the war," writes M. R. of San Diego, Calif., "it does not seem to make friends for us. Every time I pick up the paper, I read about attacks on us. Why is that?"

Ray Tucker

Answer: The easiest way to answer is to recall the old saying that "if you want to make a man an enemy, lend him five dollars." But that is not the whole answer, and a more sympathetic understanding of the reaction and attitude of peoples of other nations will improve international relations.

• • •

MENDICANT—Even the British are slightly sore at us, including the average citizen as well as Lo Dosing itself. It is not pleasant for them to feel that the empire on which the sun once never set is now a mendicant of an expanded 13 colonies.

They also think that the terms of the earlier loan were excessively harsh, and that we "rooked" them by letting our domestic prices rise. Inflation destroyed about 25 per cent of the face value of that loan.

They are even more critical about the attitude toward the Marshall plan, by certain Americans, including members of congress. They resent the suggestion that, in return for ERP aid, they should let us influence their foreign policy in Palestine, say, and their nationalization of industry experiments at home.

• • •

BLAME—Even the people we are feeding and trying to rehabilitate complain, including the Koreans, Japanese, Germans, Italians, Austrians, etc. No matter how generous we try to be, we cannot give them more than hate and blame.

They resent the continued presence of American officials and troops, as well as our regulations affecting their daily lives, in their misery and unhappiness, they blame the authorities on the spot—and that's Uncle Sam.

• • •

DISPLACED—"How soon will displaced persons from Europe begin to come to the United States if congress agrees to accept them?" asks R. U. of Brooklyn. "I might be able to employ several of them, if they are qualified."

Answer: It will be many, many months, possibly a year. They must first be screened carefully in Europe to make sure that they meet the qualifications which congress will establish.

In view of the lack of records concerning their morals, health and general background, especially their claimed ability in agriculture, factory work or domestic employment, that will take a long time.

Next they must be assembled at European ports, possibly examined again, and await shipping facilities. Even after they reach this country, provided the British system is followed, they may have to be sent to various centers for indoctrination.

By that I mean that they must be given a few basic ideas of our everyday way of living, of getting along with strangers and of assimilating themselves. Otherwise, there would be misunderstandings and heartbreaks on both sides.

• • •

BREAK—"Does Washington anticipate any serious break with England over the Palestine dispute?" queries S. A. of Cleveland.

Answer: No, for the reason that the two great western powers cannot afford to split up in the face of Russian attitudes. I understand private talks between the Truman administration and the Attlee government are pointing toward a settlement.

It is expected to be along this line: Britain will cut off Emir Abdullah of Trans Jordan, who has the only worthwhile fighting army there against the Arabs. By offering him the largest part of the holy land allotted to the Arabs. Although the other Arabian factions—Egyptian, Iraqui and Lebanese—may howl, they are not strong enough to cause major trouble.

The Jews may have to make some concessions, but in the end they would get their promised land.

• • •

LOCOMOTIVES—"Is it true," asks T. D. of Columbus, O., "that we are selling to Russia locomotives that are badly needed in this country?"

Answer: Here is the situation: Many months ago, when we were more friendly with Russia, the state and commerce departments allocated several score of locomotives to Moscow. But when an embargo was placed on any products that might conceivably be used for military purposes, shipment was held up. The locos are now stored around New York, and they are said to be deteriorating.

They are steam engines, and they were built for the broad-gauge lines in Russia. Thus they cannot be used elsewhere in Europe, where the tracks are narrower. Inasmuch as almost all American roads are shifting to Diesels, they were built without any objection from the office of defense transportation.

But the fact remains that their construction did eat up labor already insufficient supply of steel and other heavy materials.

• • •

STRAY—"Could a non-political stranger get a stray ticket to the Republican convention at Philadelphia—and a bed?" wonders D. G. of Langley.

Answer: Stay as far away from Philly as you can during the Republican, Wallace and Democratic conventions. Tickets are out of the question, and at the GOP meeting there will be little enough hotel space for all the candidates, their boosters and their headquarters.

VIEWS OF OTHERS

HEALTH ENLIGHTENMENT

The study by the Brookings institution disposes of a number of false conceptions entertained by those who would install a system of compulsory health insurance in the United States.

We have heard, for instance, a good deal about the bad health record of the country revealed by the high percentage of draft rejections. But that index is an extremely fallacious one. If a man was rejected because he lacked a finger or an eye, he cannot be accurately counted as an example of poor medical care without an individual study.

At least two-thirds of the rejections were for causes beyond the ability of medicine to prevent or correct. Of the rest, we do not know whether, under a system of health insurance, the individual would have consulted a doctor of whether the doctor would have been fully successful.

We do not know, as the Brookings institution points out, how many families are unable to afford medical care because they simply can't make ends meet or because they have given priority to non-essentials. We do not know how much free or under-cost care is given the poor by private physicians and hospitals, though we know that free care is given to 52 per cent of all hospital cases in families with less than $1,200 income.

We do not know whether the people of rural communities use hospital facilities less than city people because such facilities are less available, as the health insurance proponents contend, or because of some other reason. We do know that 80 per cent of the people in rural areas live within reasonable access to hospitals.

We do not know whether it is lack of information that leads so many people to live on poor diets or whether free medical advice would persuade them to gum from coffee to milk or from potatoes to salads.

We do know, and the Brookings institution so reports, that we haven't enough doctors, dentists and nurses to meet all the demands under a national health program. We do know that the national health is generally good and getting better under the present arrangement. We can guess that the multi-million cost of the administration of health insurance would buy a lot of research in medical care if the funds were directed to that purpose.—The Boston Herald.

An artist who wanted a home among the Taconic hills of Vermont was talking the matter over with a farmer who allowed that he had a house for sale. "I must have a good view," said the artist. "Is there a good view?"

"Well," drawled the farmer, "from the front porch you kin see Ed Sloan's barn, but beyond that there ain't nothin' but a bunch of mountains."—Wall Street Journal.

POT SHOTS

YA CAN'T TOUCH 'EM!!

Dear Potso:

Well, you city dudes can't touch us folks with a 10-foot pole these days. Your high-hatting days are over.

We have entertained in our fair community His Honor, the President of the United States! I guess that will teach you folks to treat us hill-billies with a little more respect!!

Sen Today said we were all a-flutter over the big event. Pahaw!! We carried it off like we were used to entertaining Presidents every day. T'weren't nothing. Nothing a-tall.

We only hung the flag up wrong ONCE. And what if we did have to solicit safety pins from bystanders. Shux, that can happen to anybody, anywhere.

Yep, we put 'er over. Nobody fainted. Nobody screamed. Nobody stuttered or fouled up the proceedings. Being on the Sun Valley road, we expect to be doing this sort-a-thing every election year. Fleck that bit of dust off my coatsleeve, will ya, bo? And shake the hand what waved at the President! Ahem!

ANENT HARRY'S CAKE

We don't recall reading or hearing anything about it previously, but President Harry Truman had a cake at Sun Valley that was something almost out of this world. Chef Glenn R. Street "whomped" it up special for Harry.

The cake was not only about the fanciest thing you ever saw, but right there mounted on the top was a fancy little replica of a piano. The whole thing was one of those cakes to be looked at but not eaten. And we can't say for certain if anyone did eat it.

Oh, by the by, the music stand on the piano had the first four bars of the "Missouri Waltz" in black letters.

FAMOUS LAST LINE

GENTLEMAN IN THE FOURTH ROW

HOW THINGS APPEAR FROM PEGLER'S ANGLE

NEW YORK—On May 31, in a department of "columns entitled "About People," by Jean and Robert Boardman, the New York Herald Tribune carried a free plug for a resort called Cafe Society Downtown.

Westbrook Pegler

It said "Mildred Bailey, who opens tomorrow at Cafe Society Downtown," an undisguised free announcement of some commercial value, however great or small, "at Lucienn Boyer, the French singer - - " and so forth.

It was a couple of inches of innocent babble about the size of their feet and the difference between the American and the continental methods of measurement. This sort of stuff is sheer publicity.

Most of us are host to such rubbish and, in asmuch as it cannot justify its space as news, it is our option to run it or to ditch it for particular reasons.

But for a long time there were two Cafes Society in New York, but the uptown plant closed abruptly last winter soon after the expose in these essays of the political character of the ownership and of some of the more prominent clients.

• • •

The liquor license of Cafe Society Uptown was held jointly by Lucy and Bernard Josephson, the wife and brother of Leon Josephson, a notorious communist conspirator. He holds American citizenship through naturalization, being a native of Libau, Soviet Russia, formerly Latvia. Leon is now in the federal penitentiary at Milan, Mich., doing a year for refusing to testify before the Thomas committee of the house of representatives.

He was fined $1,000, also, all this by the federal court. Without his testimony, the committee was able to prove that Leon conspired to obtain by fraud an American passport for Gerhardt Eisler, the chief of the Soviet agents in the continuing conspiracy or cold war against the government of the United States.

Gerhardt is a brother of Hans, the musician, who was admitted during the war against the evidence of his communist activities on the special demand of Mrs. Eleanor Roosevelt. After long and expensive proceedings he was found guilty and ordered deported.

• • •

The communists dramatized this deportation order as a crime against art and a reviewer who covered for the Herald Tribune a sort of farewell show by Hans took that artistic occasion to express his enormous regret that this great man was to be exiled from these shores.

As these events have observed in dated particular many times, the Herald Tribune, formerly an orthodox Republican paper but now gone far away along a party line even to the left, sometimes expresses opinions which seem out of place in their context.

Sentimos, also, in the exercise of its own peculiar code of news values, it suppresses information which seems pertinent, though it would be detrimental to certain communists and their friends.

• • •

Lucy Josephson, the forlorn widow of the imprisoned Leon, was with her brother-in-law, Barney, on the incorporation papers for both plants, downtown and uptown, which the Thomas committee described as "fronts" for the communists.

For station identification let us repeat to ourselves that on May 31, a "column" in the Herald Tribune by Jean and Robert Boardman gave expression to an absolutely gratuitous, insipid and newsless plug for cafe society downtown.

The politics of "Mildred Bailey who opens tomorrow night at Cafe Society Downtown—" is apart from this discussion.

On Nov. 23, 1947, Union Voice, the official publication of Wholesale Warehouse Workers union local 6 and of four local department store unions, all of the CIO carried a picture of "an eating scene at Cafe Society Downtown."

The occasion, the story said, was the celebration of the close of a series of conferences organized by local 2 for training "leadership" in the store. This refers to political leadership.

It is pertinent to recall that a few days ago Gov. Thomas E. Dewey found it necessary to intervene when a department store union voted to expel three American citizens for opposing communism.

The place was Cafe Society Downtown, than which, they say, there's no better place to eat, drink and be merry," said the item in Union Voice.

Howard Rushmore, the New York Journal-American's expert on communist personalities, associations, fronts and practices, a reformed communist himself, states that when the store employed on the Daily Workers in 1938 and 1939, Barney Josephson frequently called at the headquarters of the party.

He then and for a long time afterward lived with his brother, Leon, and Lucy. The committee reported that, although he appeared to have been broke, he went to Spain in 1934 and thereafter became a sponsor of the Spanish refugee appeal, a branch of the Anti-Fascist Refugee committee.

This committee paid Gerhardt Eisler's salary and living expenses here. Howard Fast, its executive, is now under sentence to prison for refusing to testify concerning its finances and affairs.

Mr. Rushmore says Isaac Romain, alias V. J. Jerome, the head of the national communist party, had full political charge of the establishment of Cafe Society Downtown which finds free advertisement through absolutely trivial prattle in the quondam Republican New York Herald Tribune.

Mr. Rushmore says further that the management demanded that the waiters should be party members and that veterans of the international or communist brigade of the Spanish civil war be given preference. He says he heard Jerome and other communist commissars in conversations with Barney Josephson that all receipts above actual expenses should go to the Communist party.

• • •

The Daily Worker recently carried a lament by Art Shields damning James W. Bennett, the director of the federal prison system, for sending Leon Josephson to Milan penitentiary in Michigan and for permitting his isolation in solitary confinement.

The article says Milan is a prison for peddlers of narcotics, which is a fact, although it is a further fact that many peddlers are addicts, too, and require special medical treatment. In severe cases isolation is necessary until the addict has recovered from the first awful tremors and pangs.

Members of the Thomas committee reported that they observed that although Leon Josephson was a lawyer, and thus should have been at ease, he shook violently during his examination and seemed to be suffering from something worse than mere anxiety or stage fright.

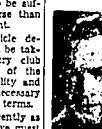

The Daily Worker's article demands that Leon Josephson be taken to the Danbury country club where prisoners of privilege of the new deal are given hospitality and courtesy when it becomes necessary to sequester them for short terms.

In his radio broadcast recently as the honored and appreciative guest of William S. Gallmor, the renegade rabbi, thief and preacher of the kremlin's political line, Joseph Herzberg, the city editor of the Herald Tribune, said that truth was the important standard in the H-T's evaluation of news.

He didn't say all the truth, though, and sometimes there is a temptation to amplify the truth as stated by the H-T. It was this temptation which prompted me to fill in the gaps in the free advertisement for Cafe Society Downtown.

BOB HOPE

I'm making a new picture called "Sorrowful Jones." My new leading lady is a cute little blond named Mary Jane Saunders . . . and she's only 5 years old. Personally I don't think she'll see 6 again.

Bob Hope

But we had quite a scare the other day. Mary Jane got the measles and it wasn't even in her contract.

In fact, it's the first time I ever saw an agent refuse his 10 per cent.

Everybody was quarantined and we were all confined to our dressing rooms. This forced the studio to give me one.

Mary Jane was disappointed when she found out she was my leading lady. She was hoping to get a part opposite Buch Jenkins.

Lucille Ball is my other leading lady in "Sorrowful Jones." All the glamorous stars were fighting over the part, and she lost.

"Sorrowful Jones" is a remake of the famous Damon Runyon story, "Little Miss Marker," which first starred Shirley Temple. I tried to get Shirley to play her original role, but she refused to sit on my lap.

THREATS WON'T WORK

There are still a few labor leaders who can't seem to realize that militant class consciousness fits awkwardly in the American democratic system. Among them must be included the heads of the 21 railroad unions who have imperiously demanded that the government nationalize the country's rail lines.

One of them, A. J. Glover, president of the switchmen's union, said: "If the government is going to coerce us—and prevent us from striking—they should coerce management, too. We're getting a rotten deal."

David B. Robertson, president of the firemen, admitted that a nationwide strike does nobody any good. "But," he asked, "what else can we do to get someone to come over to our camp and listen to our side of the argument?"

Such remarks will not win the unions much public support. A great many people know that the government has "coerced" railroad management on occasion.

Railroads have waited as much as a year for the ICC to raise rates, after labor and other costs have gone up, before they could operate at a profit. They must get ICC approval before they can abandon an unprofitable line and property—and sometimes there is a stiff fight from municipalities that don't want to lose the tax revenue from the railroad.

But they keep on operating, or lose their charter. A railroad can't say, "We're closing down and going home until we get what we want," and then resume operation when it gets a higher rate. That would be against the public interest.

If Mr. Robertson thinks that a nationwide strike would bring people into the unions' camp and win sympathy for their side of the argument, he shows an amazing ignorance of human reactions and public relations—especially since several unions have accepted the government terms he wants to strike against.

Mr. Robertson might contemplate the general popularity of John L. Lewis. Then he might think how popular the railroad unions would be if they put the quick freeze on rail transportation, thus stopping the nation's commerce and the income of millions, endangering the nation's health, blocking the American lifeline for European recovery, and injuring the nation's prestige abroad.

Mr. Lewis and his UMW recently hired a new crew of public relations men in an attempt to recapture some of John L.'s vanished glamor. James C. Petrillo and his musicians' union recently put out a book of text and cartoons with a gay-colored cover, defending his ban on recordings. Maybe the railroad unions should get themselves some new press agents, too.

The press agents might point out you can't sell anything in this country successfully, not even a point of view, unless you first have gained public interest, sympathy and acceptance. And that you don't gain them by threatening the public with inconvenience, frustration, shortage of food and loss of money.

MAGIC MOUNTAIN GROWS

During all this hot weather it's refreshing news that the capacity of Magic mountain facilities will be increased to 1,300 skiers per hour this coming winter season.

A. E. Briggs, Minidoka forest supervisor, has outlined to the Twin Falls youth and recreation council the planned improvements which include installation of an overhead T-bar lift, a rope tow on Pike mountain, a similar tow for the beginners' course, a larger ski shelter, improved sanitation facilities and an expansion of parking space.

All this should be good news to the people of Magic Valley who gradually are coming to the realization that skiing in the Magic mountain area is becoming increasingly popular—to the extent that soon it may be gaining wide recognition. It shows every indication of becoming one of the major developments in this section of Idaho.

It's good news also that the forest service permit for the Magic mountain area will be rewritten and reissued to Claude Jones who owns and operates the present ski facilities in that vicinity. Jones played an important part in pioneering Magic mountain as a ski resort, for which he deserves no little amount of credit.

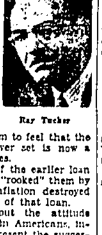

PRICELESS

We think that the 20-year-old Chinese girl who is never hungry should come to the United States. If a divorcee with two children can offer herself as a wife for $10,000, and get plenty of takers, this mealless wonder from China ought to be able to demand a cool million.

The experiment employed by county officials in measuring hundreds of bottles of confiscated liquor has established proof of one important fact which will go down in scientific history: You can funnel whisky into a vinegar jug without much difficulty, but to get it out is quite a gurgle.

TUCKER'S NATIONAL WHIRLIGIG

WASHINGTON—"Although the United States has spent millions of dollars in helping other nations since the end of the war," writes M. R. of San Diego, Calif., "it doesn't seem to make friends for us. Every time I pick up the paper, I read about attacks on us. Why is that?"

Ray Tucker

Answer: The easiest way to answer is to recall the old saying that "if you want to make a man an enemy, lend him five dollars." But that is not the whole answer, and a more sympathetic understanding of the reaction and attitude of peoples of the world will improve international relations.

• • •

MENDICANT—Even the British are slightly sore at us, including the average Briton as well as 10 Downing street. It is not pleasant for them to feel that the empire on which the sun once never set is now a mendicant of an expanded 13 colonies.

They also think that the terms of the earlier loan were excessively harsh, and that we "rooked" them by letting our domestic prices rise. Inflation destroyed about 25 per cent of the face value of that loan.

They are even more critical about the attitude toward the Marshall plan, by certain Americans, including members of congress. They resent the suggestion that, in return for ERP aid, they should let us influence their foreign policy in Palestine, say, and their nationalization of industry experiments at home.

• • •

BLAME—Even the people we are feeding and trying to rehabilitate complain, including the Koreans, Japanese, Germans, Italians, Austrians, etc. No matter how generous we try to be, we cannot give them more than bare subsistence.

They resent the continued presence of American officials and troops, as well as our regulations affecting their daily lives. In their misery and unhappiness, they blame the authorities on the spot—and that's Uncle Sam.

• • •

DISPLACED—"How soon will displaced persons from Europe begin to come to the United States if congress agrees to accept them?" asks R. U. of Brooklyn. "I might be able to employ several of them, if they are qualified."

Answer: It will be many, many months, possibly a year. They must first be screened carefully in Europe to make sure that they meet the qualifications which *congress will establish.*

In view of the lack of records concerning their morals, health and general background, especially their claimed ability in agriculture, factory work or domestic employment, that will take a long time.

Next they must be assembled at European ports, possibly examined again, and await shipping facilities. Even after they reach this country, provided the British system is followed, they may have to be sent to various centers for indoctrination.

By that I mean that they must be given a few basic ideas of our everyday way of living, of getting along with strangers and of acclimating themselves. Otherwise, there would be misunderstandings and heartbreaks on both sides.

• • •

BREAK—"Does Washington anticipate any serious break with England over the Palestine dispute?" queries S. A. of Cleveland.

Answer: No, for the reason that the two great western powers cannot afford to split up in the face of Russian attitudes. In fact, I understand private talks between the Truman administration and the Attlee government are pointing toward a settlement.

It is expected to be along this line: Britain will call off King Abdullah of Trans Jordan, who has the only worthwhile fighting force among the Arabs, by offering him the largest part of the holy land allotted to the Arabs. Although the other Arabian factions—Egyptian, Iraqui and Lebanese—may howl, they are not strong enough to cause major trouble.

The Jews may have to make some concessions, but in the end they would get their promised land.

• • •

LOCOMOTIVES—"Is it true," asks T. D. of Columbus, O., "that we are selling to Russia locomotives that are badly needed in this country?"

Answer: Here is the situation: Many months ago, when we were more friendly with Russia, the state and commerce departments allocated several score of locomotives to Moscow. But when an embargo was placed on any products that might conceivably be used for military purposes, shipment was held up. The locos are now stored around New York, and they are said to be deteriorating.

They are steam engines, and they were built for the broad-guage lines in Russia. Thus they cannot be used elsewhere in Europe, where the tracks are narrower. Inasmuch as almost all American roads are shifting to Diesels, they were built without any objection from the office of defense transportation.

But the fact remains that their construction did eat into our already insufficient supply of steel and other heavy materials.

• • •

STRAY—"Could a non-political stranger get a stray ticket to the Republican convention at Philadelphia—and a bed?" wonders R. O. of Lansing, Mich.

Answer: Stay as far away from Philly as you can during the Republican, Wallace and Democratic conventions. Tickets are out of the question, and at the GOP meeting there will be hardly enough hotel space for all the candidates, their boosters and their headquarters.

VIEWS OF OTHERS

HEALTH ENLIGHTENMENT

The study by the Brookings institution disposes of a number of false conceptions entertained by those who would install a system of compulsory health insurance in the United States.

We have heard, for instance, a good deal about the bad health record of the country revealed by the high percentage of draft rejections. But that index is an extremely fallacious one. If a man was rejected because he lacked a finger or an eye, he cannot be accurately counted as an example of poor medical care without an individual study.

At least two-thirds of the rejections were for causes beyond the ability of medicine to prevent or correct. Of the rest, we do not know whether, under a system of health insurance, the individual would have consulted a doctor of whether the doctor would have been fully successful.

We do not know, as the Brookings institution points out, how many families are unable to afford medical care because they simply can't make ends meet or because they have given priority to non-essentials. We do not know how much free or under-cost care is given the poor by private physicians and hospitals, though we know that free care is given to 52 per cent of all hospital cases in families with less than $1,200 income.

We do not know whether the people of rural communities use hospital facilities less than city people because such facilities are less available, as the health insurance proponents contend, or because of some other reason. We do know that 80 per cent of the people in rural areas live within reasonable access to hospitals.

We do not know whether it is lack of information that leads so many people to live on poor diets or whether free medical advice would persuade many to turn from coffee to milk or from potatoes to salads.

We do know, and the Brookings institution so reports, that we haven't enough doctors, dentists and nurses to meet all the demands under a national health program. We do know that the national health is generally good and getting better under the present arrangement. We can guess that the multi-million cost of the administration of health insurance would buy a lot of research in medical care if the funds were directed to that purpose.—The Boston Herald.

ALL DEPENDS

An artist who wanted a home among the Taconic hills of Vermont was talking the matter over with a farmer who allowed that he had a house for sale. "I must have a good view," said the artist. "Is there a good view?"

"Well," drawled the farmer, "from the front porch you kin see Ed Snow's barn, but beyond that there ain't nothin' but a bunch of mountains."—Wall Street Journal.

POT SHOTS

YA CAN'T TOUCH 'EM!!

Dear Potso:

Well, you city dudes can't touch us folks with a 10-foot pole these days. Your high-hatting days are over.

We have entertained in our fair community His Honor, the President of the United States! I guess that will teach you folks to treat us hill-billies with a little more respect!!

Seen Today said we were all a-flutter over the big event. Pshaw!! We carried it off like we were used to entertaining Presidents every day. 'Tweren't nothing. Nothing a-tall.

We only hung the flag up wrong ONCE. And what if we did have to solicit safety pins from bystanders. Shux, that can happen to anybody, anywhere.

Yep, we put 'er over. Nobody fainted. Nobody screamed. Nobody stuttered or fouled up the proceedings. Being on the Sun Valley road, we expect to be doing this sort of thing every election year. Fleck that bit of dust off my coatsleeve, will ya, bo? And shake the hand what waved at the President! Ahem!

ANENT HARRY'S CAKE

We don't recall reading or hearing anything about it previously, but President Harry Truman had a cake at Sun Valley that was something almost out of this world. Chef Glenn R. Street "whomped" it up special for Harry.

The cake was not only about the fanciest thing you ever saw, but right there mounted on the top was a fancy little replica of a piano. The whole thing was one of those cakes to be looked at but not eaten. And we can't say for certain if anyone did eat it.

Oh, by the by, the music stand on the piano had the first four bars of the "Missouri Waltz" in black letters.

LOST

E. J. (Shorty) Pardee, T-N printer, has been on vacation and doesn't know what to do about it. Shorty wanders into the T-N office at least twice daily, but more frequently than that some days.

Every day, you can find him eating in his favorite dining place. Several times each day he can be found someplace along Main avenue chinning with a friend.

In short, Shorty went on a vacation and is lost. We trust he will return to normal as soon as he's reunited with his favorite linotype.

FAMOUS LAST LINE

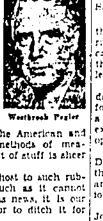

". . . And it took TWO crackups to change his mind about crop dusting!"

GENTLEMAN IN THE FOURTH ROW

HOW THINGS APPEAR FROM PEGLER'S ANGLE

NEW YORK—On May 31, in a department or "column" entitled "About People," by Jean and Robert Boardman, the New York Herald Tribune carried a free plug for a resort called Cafe Society Downtown.

It said "Mildred Bailey, who opens tomorrow at Cafe Society Downtown," an undisguised free announcement of some commercial value, however great or small, "met Lucienne Boyer, the French singer - -" and so forth.

Westbrook Pegler

It was a couple of inches of innocent babble about the size of their feet and the difference between the American and the continental methods of measurement. This sort of stuff is sheer publicity.

Most of us are host to such rubbish and, in asmuch as it cannot justify its space as news, it is our option to run it or to ditch it for particular reasons.

For a long time there were two Cafes Society in New York, but the uptown plant closed abruptly last winter soon after the expose in these essays of the political character of the ownership and of some of the more prominent clients.

• • •

The liquor license of Cafe Society Uptown was held jointly by Lucy and Bernard Josephson, the wife and brother of Leon Josephson, a notorious communist conspirator. He holds American citizenship through naturalization, being a native of Libau, Soviet Russia, formerly Latvia. Leon is now in the federal penitentiary at Milan, Mich., doing a year for refusing to testify before the Thomas committee of the house of representatives.

He was fined $1,000, also, all this by the federal court. Without his testimony, the committee was able to prove that Leon conspired to obtain by fraud an American passport for Gerhardt Eisler, the chief of the Soviet agents in the continuing conspiracy or cold war against the government of the United States.

Gerhardt is a brother of Hans, the musician, who was admitted during the war against all the evidence of his communist activities on the special demand of Mrs. Eleanor Roosevelt. After long and expensive proceedings he was found guilty and ordered deported.

• • •

The communists dramatized this deportation order as a crime against art and a reviewer who covered for the Herald Tribune a sort of farewell show by Hans took that artistic occasion to express his enormous regret that this great man was to be exiled from these shores.

As these essays have observed in dated particular many times, the Herald Tribune, formerly an orthodox Republican paper but now gone far away along a party line leading to the left, sometimes expresses opinions which seem out of place in their context.

Sometimes, also, in the exercise of its own peculiar scale of news values, it suppresses information which seems pertinent, though it would be detrimental to certain communists and their friends.

• • •

Lucy Josephson, the forlorn widow of the imprisoned Leon, was with her brother-in-law, Barney, on the incorporation papers for both plants, downtown and uptown, which the Thomas committee described as "drops" for the communists.

For station identification let us repeat to ourselves that on May 31, a "column" in the Herald Tribune by Jean and Robert Boardman gave expression to an absolutely gratuitous, insipid and newsless plug for cafe society downtown.

The politics of "Mildred Bailey who opens tomorrow night at Cafe Society Downtown—" is apart from this discussion.

On Nov. 23, 1947, Union V[illegible] the official publication of Wholesale Warehouse Workers union [illegible] and of four local department store unions, all of the CIO carried a picture of "an eating scene at Cafe Society Downtown."

The occasion, the story said, was the celebration of the close of a series of conferences organized [illegible] local 2 for training "leadership" in the stores. This refers to political leadership.

It is pertinent to recall that a few days ago Gov. Thomas E. Dewey found it necessary to intervene when a department store union voted to expel three American citizens for opposing communism.

"The place was Cafe Society Downtown, than which, they say, there's no better place to eat, drink and be merry," said the item in Union Voice.

Howard Rushmore, the New York Journal-American's expert on communist personalities, associations fronts and practices, a reformed communist himself, states that when he was employed on the Daily Workers in 1938 and 1939, Barney Josephson frequently called at the headquarters of the party.

He then and for a long time afterward lived with his brother, Leon, and Lucy. The committee reported that, although he appeared to have been broke, he went to Spain in 1934 and thereafter became a sponsor of the Spanish refugee appeal, a branch of the Anti-Fascist Refugee committee.

This committee paid Gerhardt Eisler's salary and living expenses here. Howard Fast, its executive, is now under sentence to prison for refusing to testify concerning its character and affairs.

Mr. Rushmore says Isaac Romain, alias V. J. Jerome, the head of the national communist party, had full political charge of the establishment of Cafe Society Downtown which finds free advertisement through absolutely trivial prattle in the quondam Republican New York Herald Tribune.

Mr. Rushmore says further that the management demanded that the waiters should be party members and that veterans of the international or communist brigade of the Spanish civil war be given preference. He says he heard Jerome and other communist commissars say in conversations with Barney Josephson that all receipts above actual expenses should go to the Communist party.

• • •

The Daily Worker recently carried a lament by Art Shields damning James V. Bennett, the director of the federal prison system, for sending Leon Josephson to Milan penitentiary in Michigan and for permitting his isolation in solitary confinement.

The article says Milan is a prison for peddlers of narcotics, which is a fact, although it is a further fact that many peddlers are addicts, too, and require special medical treatment. In severe cases isolation is necessary until the addict has recovered from the first awful tremors and pangs.

Members of the Thomas committee reported that they observed that although Leon Josephson was a lawyer, and thus should have been at ease, he shook violently during his examination and seemed to be suffering from something worse than mere anxiety or stage fright.

The Daily Worker's article demanded that Leon Josephson be taken [illegible] country club [illegible] of the [illegible] equality and [illegible] necessary [illegible] for short terms.

[illegible] recently as [illegible] guest [illegible] the renegade [illegible] of the [illegible] Herr[illegible] Herald Tribune said that truth was the [illegible] standard in the H-T's evaluation of news.

He didn't say all the truth, though, and sometimes there is a temptation to amplify the truth as stated by the H-T. It was this temptation which prompted me to fill in the gaps in the free advertisement for Cafe Society Downtown.

BOB HOPE

I'm making a new picture called "Sorrowful Jones." My new leading lady is a cute little blond named Mary Jane Saunders . . . and she's only 5 years old. Personally I don't think she'll see 6 again.

Bob Hope

But we had quite a scare the other day. Mary Jane got the measles and it wasn't even in her contract.

In fact, it's the first time I ever saw an agent refuse his 10 per cent.

Everybody was quarantined and we were all confined to our dressing rooms. This forced the studio to give me one.

Mary Jane was disappointed when she found out she was my leading lady. She was hoping to get a part opposite Butch Jenkins.

Lucille Ball is my other leading lady in "Sorrowful Jones." All the glamorous stars were fighting over the part, and she lost.

"Sorrowful Jones" is a remake of the famous Damon Runyon story, "Little Miss Marker," which first starred Shirley Temple. I tried to get Shirley to play her original role, but she refused to sit on my lap.

Meryl Kinney Is Married At Formal Chapel Rites

MRS. JOHN L. KORNHER
(Jordan photo-staff engraving)

GOODING, June 14—Wedding vows were exchanged Sunday, June 6, by Meryl Kinney and John L. Kornher at formal rites performed by the Rev. William J. Lamberton at the Thompson chapel.

Gowned in white slipper satin the bride entered the chapel upon the arm of her father, Forest Kinney, who gave his daughter in marriage. The wedding dress was fashioned with pointed basque waist, full skirt and long sleeves with pointed wrists. The fingertip veil, edged with lace, was held with a pearl coronet and pink rosebuds.

The bride carried a white Bible, a gift from her grandmother, topped with pink rosebuds and a shower of white satin streamers.

Alice Hemry and Phyllis Stone, wearing gowns of pastel pink, were candle-lighters.

Background music for the wedding included "Clair de Lune," Debussy, by Deloris Knight who wore green and pink lace. Miss Knight also played the wedding processional and recessional. Del Ora Dixon, gowned in blue satin and white net, sang "Temptation" by Lizat, "I Love Thee" by Grieg, was sung by James Barker.

Vada Mae Kinney, sister of the bride, was maid of honor. She wore yellow crepe with a deep yoke of net and a peplum. Helen Kornher, bridesmaid, wore blue marquisette designed with a lace-edged berthe and deep ruffled flounce on the skirt. Their corsages were deep pink rosebuds.

The bride's mother, Mrs. Kinney, wore black with matching accessories. Her flowers were white carnations.

Kenneth L. Kornher served as best man for his brother. Gordon Lambeth and Clifford Bissell were ushers.

Elsie Smith and Pat Van Dorn were in charge of the guest book. Some 109 wedding guests signed the book.

Following the wedding ceremony a reception for the couple was given at the Kinney country home, the bride and bridegroom cutting the cake in traditional manner.

Serving the cake was Vada Mae Kinney while Miss Kornher presided at the punch bowl. Phyllis Stone was in charge of the gift tables.

The bride is a graduate of the Gooding high school with the class of 1948. The bridegroom is a son of John Kornher, Gooding. He is associated with a honey business at Buhl. A graduate of the University of Colorado at Boulder with a degree in electrical engineering, he is an ensign in the U. S. naval reserve.

Following a honeymoon at Sun Valley the couple will be at home at Buhl.

Out-of-town guests included Mr. and Mrs. Ed Dinan, Bremerton, Wash.; Mr. and Mrs. Charles P. Hancock, Jerome; Mr. and Mrs. Fred Orr, Barbara Stewart, Gayland Koonce, Ruby Vanslike and Mr. and Mrs. C. H. Kinney, all Fairfield.

We, the Women

By RUTH MILLETT
NEA Staff Writer

A Massachusetts woman who has already lived 102 years and is still finding life good, has a philosophy of life that young women living through their busy, hectic, crowded years might borrow to good advantage.

It is not, she claims, the big important events in her life that a woman remembers with deepest happiness. When she is old and has time to sit in the sun and look back on her life it's the little things that stand out. So looking back over a long and happy life she advises women to stop fussing and fretting and worrying—and to enjoy life as they go along.

Modern woman is beset by advice. But most of it just stirs her up to more unhappiness.

Perhaps she could do far worse than to take the advice of a 102-year old woman who has lived long enough to know that it doesn't pay a woman to fret and fume and worry.

Today's woman might be a happier woman, a better wife and mother and a more serene homemaker if she would make up her mind to relax and get some pleasure out of every day.

At least it is advice that won't make her more frustrated than ever —like most of the advice she gets from the experts.

And it just might be that a woman who has lived to the ripe old age of 102 and is still enjoying life knows more about how to be a happy woman than all the so-called experts put together.

TWIN FALLS TOPS RUSSETS, 14 TO 8

Kuehl Slated to Face Idaho Falls Monday

By The Associated Press

Moving to within one and one-half games of Idaho Falls, the third place Twin Falls Cowboys Sunday night defeated the league leaders 14 to 8 at the latter's park.

Arthur Kuehl is scheduled to take the mound for Twin Falls Monday night as the Waddies attempt to get closer to the Russets and second place Pocatello. The Cards scored a 10 to 3 victory over Boise Sunday.

The Cowboys raced across 10 runs in the fourth and fifth innings Sunday to make quick work of the league leaders. Six runs came across in the top of the fourth and a combination of walks, a wild pitch, an error and a quintet of hits.

In spite of heavy Russet slugging, Twin Falls managed to make their 10 bingles count. Idaho Falls slapped out 15 hits but failed to tie them together and as a result, left 18 men stranded on base. The Cowboys put on a six-run rally in the top of the fourth to take a lead they never relinquished.

Elsewhere on the Pioneer scene Sunday the Salt Lake City Bees took a doubleheader from the Great Falls Electrics, winning 6 to 1 and 13 to 5, while Billings thumped the Ogden Reds 11 to 4.

The Buzzers moved back into fourth place and the Reds dropped into the second division.

The Billings Mustangs belied their last place league status with a seven-run outbreak in the first inning and from there on in they coasted to a victory over the Reds.

Chucker John Stilwell went the route for Billings. He scattered his 10 hits.

The Bees and Sparkies practically matched hits in their doubleheader at Great Falls but Salt Lake City's blows came when it counted.

Both teams were credited with seven bingles in the opener and the Buzzers outhit the home town crew 12 to 11 in the nightcap.

The first game was a pitchers duel between Dick Lamer of the Bees and Bob White.

Salt Lake City chalked up eight runs in the third inning with Reno Chess the sparkplug. The fleet infielder got two runs home with a four bagger. Then he came to bat the second time of inning with the bases loaded. A searing double cleared the tank and he batted in five runs in that one frame.

Bob Mahoney, Pocatello chucker, registered his eighth victory of the season as the Cards tucked away its game over Boise.

Another Lady Is Free of Stomach Gas and Headache

One lady said recently that her stomach used to be like a "gas factory!" That is, when she ate a meal it seemed to turn right into gas. She was always bloated, had awful stomach gas pains, daily headaches and constant irregular bowel action. Now, however, this lady says she is FREE of STOMACH GAS and she says the change is due to taking INNER-AID. Her meals agree with her. No gas or bloat after eating. Headaches and constipation are gone. Ohl what relief!" states this lady. "Why don't other gas and constipation sufferers get INNER-AID?"

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID, sold by all drug stores.—Adv.

Jack Graham's Homers Spark Padres' Drive

By The Associated Press

A surprise team each week seems to be the Pacific coast league's routine. And the new headliners are Rip Collins' rejuvenated San Diego Padres.

The Padres succeeded Seattle as the PCL glamour club by cooling the Rainiers six straight times before bowing in yesterday's second game, 8-4. San Diego, paced by Jack Graham's 30th homer with two aboard, took the opener, 5-2.

Graham clouted No. 31 with none on in the finale, but southpaw Herman Besse staggered through to end the Suds' losing ways.

San Diego's surge put the Padres in third place, three games back of leading San Francisco and one jump behind Los Angeles. The Rainiers' dismal week left them in fourth position.

Tommy Bridges, the old Detroit Tiger now filming for Portland, turned in the day's neatest pitching job, however. He limited San Francisco to two hits in a brilliant 4-0 victory. The Seals bounced back to take the nightcap, 9-8, and gain a three-three series split.

Los Angeles picked up some ground by two-timing Hollywood, 10-4 and 4-3. Red Adams went the route for the Angels in the opener, while Tom Hafey won the last in relief. They were helped by homers by Cliff Aberson, John Ostrowski and Jack Sanford.

Oakland won a four-three series from Sacramento on Aldon Wilke's five-hit 4-1 victory in the opener. The Solons, behind Edgar Smith's five-hitter, took the second game, 6-1.

National Loop Race Tighter Than Usual

By The Associated Press

The National league, noted for its close pennant races, is staging one this year that promises to make all others look like runaways by comparison.

With the season nearly one third gone, the gap between the co-leading New York Giants and Boston Braves and the fourth place St. Louis Cardinals is only one and one-half games. Pittsburgh is in third place, a game behind the leader.

The Braves, who had dropped out of the lead Saturday when they suffered a double loss to Cincinnati, bounced back into a first place tie with the Giants yesterday by dumping the Reds twice in Cincinnati, 8-7 and 10-5. The Reds blew a six-run lead in the first game as the Braves came through with two five-hit four-run innings. Eddie Stanky drove in Bobby Sturgeon with the winning run in to climax a four-run ninth-inning rally.

Braves Score Early

The Braves scored early against Ewell Blackwell in the second game and were never headed. Bob Elliott's fifth inning home run with two mates aboard gave the Braves a commanding lead. Hank Sauer of the Reds hit his 18th and 19th home runs and tripled in the second game.

The Giants and Cardinals split a couple of close decisions. The Giants won the first game, 8-7, and the Cards took the second, 3-2. A crowd of 32,000, largest of the season in St. Louis, saw the Cards snap a five-game losing streak.

Willard Marshall, Buddy Kerr, Bobby Thomson and Sid Gordon paced a 16-hit attack against five Card pitchers in the first game. One of Marshall's hits was a home run.

Cards Squelch Giants

The Cards squelched a ninth-inning Giant uprising to eke out a second game win. Harry Brechren, who was charged with the first game defeat, retired the last two men in the ninth of the nightcap with the tying and winning runs on the bases.

Ralph Kiner hammered out his 16th and 17th home runs of the season to lead the Pirates to a 5-2 second game victory over Philadelphia after the Phils had copped the opener, 8-7.

Johnny Schmitz registered his sixth victory of the season and his third over Brooklyn when he hurled the Cubs to a 3-1 victory over the Dodgers in Chicago. The southpaw yielded only four hits as Chicago salved the fourth victory in its last five games.

Yanks Top Indians

The New York Yankees salvaged the final game of a three-game series with the Cleveland Indians, defeating Bob Feller and the tribe, 5-3. Feller, Cleveland's ace right-hander, attempted to give the Indians a sweep of the four-game set, but suffered his sixth setback instead. He had a 1-0 lead for five innings, but a triple by Joe DiMaggio and a home run by Yogi Berra in the sixth forced his retirement for a pinch-hitter in the new inning.

The Philadelphia Athletics split a doubleheader with the St. Louis Browns to creep within three games of the American league leading Indians. They won the second game, 3-1, after having dropped the opener, 7-5.

Carl Scheib scattered seven hits to register his fourth triumph in the afterpiece. Rookie Lou Brissie of the A's was coasting along behind a 6-0 bulge when he suffered his first stuff in the eighth inning of the first game.

Trout, Trucks Win

The Tigers went above the .500 mark for the first time in weeks when they defeated the Senators in both ends of a doubleheader in Washington, 9-3 and 9-2. Dizzy Trout allowed only six hits in the opener and Virgil Trucks gave up seven in the nightcap.

Rain forced the postponement of the scheduled doubleheader in Boston between the Chicago White Sox and the Red Sox.

"Babe" Bows Out as Fans Cheer Again

By OSCAR FRALEY

NEW YORK, June 14 (UP)—Babe Ruth's famed number "3" uniform went into baseball's Hall of Fame today after a bit of nostalgic make-believe which tore a tattered page out of the diamond's storied past and for a moment almost made it reverse.

It was the silver anniversary of Yankee stadium and the ball club can be proud of those 25 candles.

For out of the dugout—and out of the years—came striding many stars of that 1923 team to bask once again in the adulation of the crowd.

Former Greats

Jumpin' Joe Dugan . . . Whitey Witt . . . Sad Sam Jones . . . Wally Pipp . . . Bullet Joe Bush . . . Wiley Moore . . . Waite Hoyt . . . Bob Shawkey . . . and Wally Schang.

And there was Mike McNally . . . Freddie Hoffman . . . Tom Zachary . . . Elmer Smith . . . Cary Mays . . . Bob Meusel . . . Hinky Haynes . . . and George Pipgras.

The Johnnies-come-lately crowded in, too. These included Red Rolfe, Bump Hadley, Sammy Byrd, George Selkirk, Myril Hoag, Ernie Bonham, Oscar Roettger, Pat Collins, Jake Powell, Lefty Gomez, Bill Dickey and Mark Koenig.

Then, "The Babe"

And then came the Babe, striding out last of all and walking up to the plate on those pipe-stem ankles to swing once more. The fans roared the same as they did in the days when he was the king of clout. It was a roar that sounded as if they were trying to tear down the house that Ruth built.

It took them all back a long way. A moment before they had been a disorganized bunch of men, some fat and some natty, some middle-aged and others bald. But now they stood up straighter and once again fans were looking at a line of ball players who would bring $1,000,000 ready dollars in their prime.

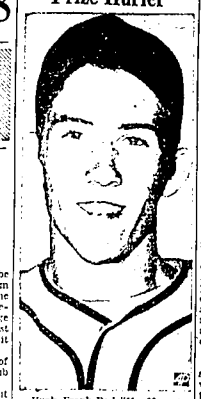

Retired Forever

And it sounded like a hymn when the 50,000 fans sent the strains of Auld Lang Syne swelling out of the ballpark.

They shuffled their feet a bit awkwardly when Will Harridge, American league president, declared that Babe's number was retired forever from Yankee flannels and destined for the baseball museum.

Probable Pitchers

Twin Falls (Kuehl 2-2) at Idaho Falls (M. Waters 7-1). Boise (Colombo 2-2) at Pocatello (Dudrey 5-2). Salt Lake (Drilling 2-0) at Great Falls (Oliver 0-0). Ogden (Barrett 2-4) at Billings (Panneman, 3-5.)

Elmore Wildlife Club Protest Set

GLENNS FERRY, June 14—Members of the Elmore County Wildlife club No. 1 are expected to protest the policy of the state game commission in granting special permits to hunt big game by lottery at their meeting Wednesday. A letter has been drafted which will be submitted for action by the members at that time. It follows:

"The Elmore County Wildlife club herewith goes on record as being opposed to the game department's policy of controlling the hunting and killing of big game by requiring an extralegal permit, obtained by lottery, to hunt said game in designated areas.

"The present system of permit-by-lottery, in its general effect deprives a game license holder of making use of his lawfully-obtained permit to hunt, pursue, and kill game. Furthermore, this system utterly deprives the license holder of choosing his hunting companions. This personal selection of one's hunting companions may in itself be considered a principal incentive for a sportsman to give material support and to manifest his personal interest in wild life activities.

Seasonal Control

"In our opinion, a preferable measure would be one in which conservation is regulated by seasonal control. We believe it would serve to the best interest to place the propagation and control of our wild life in the hands of our state game commission without legislative restrictions or hindrances in matters pertaining to seasonal and area controls.

"Therefore, be is resolved that we urge upon our state game commission to take other adequate measures of game conservation, with the view of abolishing all forms of license controls by lottery.

180 Members

"Be it further resolved that our secretary be instructed to send a copy of this letter to our respective state legislative representatives, our state game commission, and to each wild life club in the state of Idaho."

Russell Montague is president of the local club, and William Peterson is secretary. There are 180 members of the unit.

"Two-way Stretch"

for safety
You get added protection because of the distinctive "high compression" tread on Mobil de luxe Tires—tread that gives you *extra surface traction.*

for mileage
Miles roll out of Mobil Tires month after month, because high-tensile cords and extra strong plies give added wear.

Pick extra mileage *right out of the air!*

EVER wonder how important it is for an engine to be able to *breathe* easily? Then just consider . . .

1. An efficient engine wants to "inhale" about 1,450 *cubic feet of air* with every *gallon of gas.* That's *volume!*

2. An eight-cylinder engine "inhales" as many as 240 times (or more) *per second.* That's *frequency!*

Now you know why "free-breathing" engine design is so important.

In the great new Packard Eights, "free-breathing" design involves new streamlined valve design . . . improved carburetion . . . higher compression ratios.

And what does all this mean to the motorist? It means "safety-sprint" acceleration. Extra smoothness. And above all—a gain of *up to 10% in fuel economy!*

Come in—learn how Packard's "free-breathing" engine design lets you burn more *sky* . . . less *gasoline!*

MARKETS AT A GLANCE

NEW YORK, June 14 (AP)—
Stocks — Irregularly higher; steels, oils in demand.
Bonds—Steady; rails improve.
Cotton—Higher; mill buying.
Chicago:
Wheat — Mixed; trade light, price changes small.
Corn—Firm at close on short-covering.
Oats—Firm; late rally with corn.
Hogs—Active, 50 cents to $1.00 higher; top $25.50.
Cattle—Good and choice grain fed steers, heifers 50 cents up.

NEW YORK, June 14—A steady stream of selling orders chipped away at earlier gains in stock prices today and the market ended on a downward slant.

Brisk demand had lifted numerous issues. Principally in the iron and steel groups, to new highs for the year or longer. Many of these gains were later changed into losses.

The day's turnover was around 1,700,000 shares.

Closing lower were Bethlehem Steel, Youngstown Sheet, Montgomery Ward, Schenley, American Telephone, General Electric, Atlantic Coast Line, Union Pacific, Mission Corp., and Twentieth Century-Fox.

Standard Oil (N. J.) lost all but ⅝ of an earlier gain of more than 2 points. Others a trifle higher were U. S. Steel, Douglas Aircraft, Kennecott Copper, Radio Corp., Texas Co., and Woolworth.

Grain

CHICAGO, June 14 (AP)—A late rally in corn and oats left those grains with gains on the board of trade today. Wheat tended to lag and closed with small fractional changes.

The late strength in feed grains was largely technical, traders said. Some traders had gone short in the feed grains at the opening on reports of good moisture over the week-end in the mid-west. When no pronounced selling developed, these shorts covered their commitments by buying in the last 15 minutes.

Until the late spurt the market had been unusually dull with price changes of only small fractions recorded and no definite trend apparent.

Wheat closed ¼ lower to ¼ higher, July 2.27¼, corn was 1¼-1½ higher, July 2.17¾-2.18, oats were ⅞-1½ higher, July 94⅜-½, and July soybeans was unchanged at 4.19.

tinued, "has gone up almost 50 per cent."

Joshes Senator

The President, speaking under auspices of the Greater Los Angeles Press club, joshed about a senator, whom he did not identify, making reference to his tour of "whistling stops."

Referring to crowds which had greeted him on his tour, he said his reception at Los Angeles "topped them all."

"Los Angeles," he continued, "is the biggest whistling stop of them all."

"Right to Inform"

He defended his pre-convention tour on the ground that "I have a right and duty to inform the people."

He said that tremendous crowds greeted him in a parade through Omaha, Nebr., and that at Butte, Mont., he was welcomed by more people than live in that city.

He spoke, he said, to "two acres of people" in Spokane and said that his reception in Seattle was the greatest one "one record" there.

He praised his welcome in San Francisco, and added that "here you topped them all."

Scholarships Go To Students and School Teachers

Ten 1948 graduates of Magic Valley high schools and 10 teachers were awarded cash scholarships in a scholastic program which came to a close Saturday, May 29.

Students receiving the awards were Betty Jo Rees, June Carr, Norma Bernice Lee, Mary Ann Lulloff, Betty Milner, Muriel Pugliano, Maurine Boren and Georgene Champlin, Twin Falls; Gladys Blue, Salem, and Jeanette Childers, Filer.

Teachers who were winners were Helen Taylor, Helen Peavey, Dorothy Hastings and Mary Brewington, Twin Falls; Elsie Lindgren, Kimberly; Mary Anderson, Murtaugh; Jean Mizer, Hailey; Mary Peck, Filer; Venna Scofield, Mountain Home, and Gem Howard, Eden.

This is the second year the scholarships have been offered to high school and college students and women teachers. The money may be used for attendance at any accredited college, university or school of specialized training, and foreign travel and advanced study are available to teachers.

There were 849 student and teacher winners in the 1947-48 scholarship program.

Those eligible may register for the third program. The scholarships are sponsored by Sweetbrier shops.

Local Telephone Directory Shows Expansions Here

That Twin Falls is growing is indicated by the new telephone directory distributed in the business area Monday. Containing 200 pages, including 176 in the classified section, the book is much larger than the 120-page directory issued in August, 1947.

Coinciding with these figures is the statement of M. E. Dolling, Twin Falls manager, Mountain States Telephone and Telegraph company, that the subscriber list has jumped considerably since last August.

Dolling said 3,000 directories were delivered Monday, with 3,300 more for the city and rural areas to be out by Thursday, completing the June distribution.

Publication is now back on a six-month basis. The last 11-month wait was caused by a paper shortage, Dolling explained.

Charges Pressed For Truck Theft

BURLEY, June 14—Steve Jones, Austin, Tex., was to be arraigned in Cassia county probate court Monday on charges of stealing a truck in Rupert and hit and run driving near Declo.

Jones stole the truck from the Jerome Cooperative creamery in Rupert Saturday night and later struck a car driven by Norman Dayley, route 1, Burley, driving on without stopping.

He was later arrested by Minidoka county sheriff deputies and state police at the Springdale gas station.

The weight of the armour worn in the middle ages was as much as 100 pounds.

Traffic Fines

T. J. Pullin was fined $100 and $3 court costs in city court Monday on a charge of driving while under the influence of intoxicating liquor. His driver's license was taken by the court.

A total of $29 in fines and costs was paid by Clinton E. Funk—$15 fine and $3 costs on speeding, $2 fine and $3 costs on failure to report to court on an overtime parking ticket, and $1 each on six other overtime parking tickets.

A fine of $10 and $3 costs was paid by Lewis G. Guttery on a charge of speeding.

Overtime parking fines of $1 each were paid by Mrs. Julia Mather, Viv Graybeal, J. A. Aulbach and Bob Kevan.

In justice court, Donald N. Hyder paid a fine of $15 and $3 costs for speeding, and Herbert C. Gentry was fined $5 and $3 costs on a charge of operating a motor vehicle with defective lights.

Stocks

MARKETS AT A GLANCE

NEW YORK, June 14 (AP)—
Stocks — Irregularly higher; steels, oils in demand.
Bonds—Steady; rails improve.
Cotton—Higher; mill buying.
Chicago:
Wheat — Mixed; trade light, price changes small.
Corn—Firm at close on short-covering.
Oats—Firm; late rally with corn.
Hogs—Active, 50 cents to $1.00 higher; top $25.50.
Cattle—Good and choice grain fed steers, heifers 50 cents up.

NEW YORK, June 14—A steady stream of selling orders chipped away at earlier gains in stock prices today and the market ended on a downward slant.

Brisk demand had lifted numerous issues. Principally in the iron and steel groups, to new highs for the year or longer. Many of these gains were later changed into losses.

The day's turnover was around 1,700,000 shares.

Closing lower were Bethlehem Steel, Youngstown Sheet, Montgomery Ward, Schenley, American Telephone, General Electric, Atlantic Coast Line, Union Pacific, Mission Corp., and Twentieth Century-Fox.

Standard Oil (N. J.) lost all but ⅛ of an earlier gain of more than 2 points. Others a trifle higher were U. S. Steel, Douglas Aircraft, Kennecott Copper, Radio Corp., Texas Co., and Woolworth.

Grain

CHICAGO, June 14 (AP)—A late rally in corn and oats left those grains with gains on the board of trade today. Wheat tended to lag and closed with small fractional changes.

The late strength in feed grains was largely technical, traders said. Some traders had gone short in the feed grains at the opening on reports of good moisture over the week-end in the mid-west. When no pronounced selling developed, these shorts covered their commitments by buying in the last 15 minutes.

Until the late spurt the market had been unusually dull with price changes of only small fractions recorded and no definite trend apparent.

Wheat closed ¼ lower to ⅜ higher, July 2.27¼, corn was 1¼-1⅜ higher, July 2.17¾-2.18, oats were ½-1⅛ higher, July 94⅛-¼, and July soybeans was unchanged at 4.19.

tinued, "has gone up almost 50 per cent."

Joshes Senator

The President, speaking under auspices of the Greater Los Angeles Press club, joshed about a senator, whom he did not identify, making reference to his tour of "whistling stops."

Referring to crowds which had greeted him on his tour, he said his reception at Los Angeles "topped them all."

"Los Angeles," he continued, "is the biggest whistling stop of them all."

"Right to Inform"

He defended his pre-convention tour on the ground that "I have a right and duty to inform the people."

He said that tremendous crowds greeted him in a parade through Omaha, Nebr., and that at Butte, Mont., he was welcomed by more people than live in that city.

He spoke, he said, to "two acres of people" in Spokane and said that his reception in Seattle was the greatest one "one record" there.

He praised his welcome in San Francisco, and added that "here you topped them all."

Scholarships Go To Students and School Teachers

Ten 1948 graduates of Magic Valley high schools and 10 teachers were awarded cash scholarships in a scholastic program which came to a close Saturday, May 29.

Students receiving the awards were Betty Jo Rees, June Carr, Norma Bernice Lee, Mary Ann Lulloff, Betty Milner, Muriel Pugliano, Maurine Boren and Georgene Champlin, Twin Falls; Gladys Blue, Salem, and Jeanette Childers, Filer.

Teachers who were winners were Helen Taylor, Helen Peavey, Dorothy Hastings and Mary Brewington, Twin Falls; Elsie Lindgren, Kimberly; Mary Anderson, Murtaugh; Jean Mizer, Hailey; Mary Peck, Filer; Venna Scofield, Mountain Home, and Gem Howard, Eden.

This is the second year the scholarships have been offered to high school and college students and women teachers. The money may be used for attendance at any accredited college, university or school of specialized training, and foreign travel and advanced study are available to teachers.

There were 849 student and teacher winners in the 1947-48 scholarship program.

Those eligible may register for the third program. The scholarships are sponsored by Sweetbrier shops.

Local Telephone Directory Shows Expansions Here

That Twin Falls is growing is indicated by the new telephone directory distributed in the business area Monday. Containing 200 pages, including 176 in the classified section, the book is much larger than the 120-page directory issued in August, 1947.

Coinciding with these figures is the statement of M. E. Dolling, Twin Falls manager, Mountain States Telephone and Telegraph company, that the subscriber list has jumped considerably since last August.

Dolling said 3,000 directories were delivered Monday, with 3,300 more for the city and rural areas to be out by Thursday, completing the June distribution.

Publication is now back on a six-month basis. The last 11-month wait was caused by a paper shortage, Dolling explained.

Charges Pressed For Truck Theft

BURLEY, June 14—Steve Jones, Austin, Tex., was to be arraigned in Cassia county probate court Monday on charges of stealing a truck in Rupert and hit and run driving near Declo.

Jones stole the truck from the Jerome Cooperative creamery in Rupert Saturday night and later struck a car driven by Norman Dayley, route 1, Burley, driving on without stopping.

He was later arrested by Minidoka county sheriff deputies and state police at the Springdale gas station.

The weight of the armour worn in the middle ages was as much as 100 pounds.

Traffic Fines

T. J. Pullin was fined $100 and $3 court costs in city court Monday on a charge of driving while under the influence of intoxicating liquor. His driver's license was taken by the court.

A total of $29 in fines and costs was paid by Clinton E. Funk—$15 fine and $3 costs on speeding, $2 fine and $3 costs on failure to report to court on an overtime parking ticket, and $1 each on six other overtime parking tickets.

A fine of $10 and $3 costs was paid by Lewis O. Guttery on a charge of speeding.

Overtime parking fines of $1 each were paid by Mrs. Julia Mather, Viv Graybeal, J. A. Aulbach and Bob Kevan.

In justice court, Donald N. Hyder paid a fine of $15 and $3 costs for speeding, and Herbert C. Gentry was fined $5 and $3 costs on a charge of operating a motor vehicle with defective lights.

Solon of Utah Seeks Probe For Tobacco

WASHINGTON, June 14 (U.P.)—It might be just as well, Rep. Walter K. Granger, D., Utah, said today, if the south never grew another leaf of tobacco.

Granger, a member of the house agriculture committee, stressed that there's no malice behind his suggestion.

He is just tired, he said in an interview, of the tobacco firms and the people who push their wares. Granger said that's why he has introduced a bill to investigate the "entire tobacco and cigarette problem."

Attitude Resented

Granger, a Mormon whose religion frowns on the use of tobacco, said he has resented for some time "the attitude of tobacco companies who push their way into your home on the radio."

The idea, he said, is for congress to make a "strictly scientific" investigation of the impact of tobacco on the morals, efficiency and mental outlook of people who use cigarettes and cigars.

Smokers Have Right

"People who want to smoke have a right to do it," Granger said. "As a matter of fact, most of my friends do. But I have a hunch they wouldn't smoke as much if they knew the effects of tobacco."

And, he doesn't like the house vote to earmark some funds from the European aid program for tobacco. The idea is to encourage European workers to produce more by rewarding them with tobacco.

"It isn't a food," he said. "It's a waste of money, stimulating things that aren't moral."

Farmer Work Is Delayed by Rains

BOISE, June 14 (U.P.)—May weather was fairly seasonable over most of southern Idaho, but continued rains greatly delayed farm work in the north, the bureau of agricultural economics reported today.

Most growing crops were developing well by June 1, though they were late. In the north the delayed planting of spring crops seemed likely to reduce acreages of these crops rather materially, especially of dry peas.

Wheat production was indicated on June 1 to be about 37,109,000 bushels. A crop of this size would be about two per cent smaller than last year's big crop, but 30 per cent larger than average. Prospects are that production both winter and spring wheat will be slightly less than in 1947. A considerably smaller oats crop and a slightly smaller barley crop are in prospect.

Condition of hay and fruit crops on June 1 was generally somewhat lower than a year ago. Prospects pointed to larger crops of cherries and pears and to a smaller peach crop than were harvested last year.

Idaho Horticultural Unit Parley Slated

PAYETTE, June 14 (U.P.)—Discussion on the "little cherry" disease will highlight the business session of the summer meeting of the Idaho State Horticultural society here July 18.

Lawrence Kimbaugh of Fruitland, society president, said a tour of Payette county orchards and a picnic also are planned.

Money

RUPERT, June 14—To encourage area residents to shop in Rupert, the local Chamber of Commerce is giving away silver dollars.

As part of the jamboree days preceding the annual Rupert rodeo, the chamber is sponsoring silver dollar day between 1 and 5 p.m. Saturday.

A representative of the group will approach persons on the street, hand them a silver dollar and welcome them to Rupert.

Buchanan Attends Alumni Dinner

Chatting after the University of Idaho alumni dinner in Twin Falls are, left to right, Tom F. Alworth, toastmaster for the occasion, J. E. Buchanan, president of the university, and Jack Smith, retiring president of the local alumni chapter. (Staff photo-engraving)

Alumni Elect Blandford, Hear Report of President Buchanan

J. H. Blandford, Twin Falls, has been elected to head the local chapter of the University of Idaho Alumni association, succeeding Jack Smith.

Other chapter officers are Hanley Payne, vice president and Mrs. John Leiser, secretary-treasurer. They were elected by 70 members attending a dinner-meeting at the Park hotel.

In a report to the alumni, J. E. Buchanan, president of the university, and principal speaker on the program, said the university is concentrating on improving research departments, particularly agriculture. Here, he said, the school is working on the improvement of the native Idaho crops, sugar beets, potatoes and beans.

Dwelling on the current problems of the university, he said the housing for married students, both veteran and civilian, are causing the biggest headache.

The enrollment is still over the normal complement of 3,700, he said, with 3,814 students attending classes. This year there were 506 students in the graduating class.

In conclusion, he urged the alumni to encourage high school students to discard the threat of selective service and make plans to enter college.

Guests included Bud McNeeley, past president of the Buhl chapter; Willard Kuntz and Robert Nelson, Rupert; and Virgil Crook, and Mrs. Norman Hintz, Jerome.

Knights of Pythias Conference Ended

BOISE, June 14 (U.P.)—Knights of Pythias ended their 55th annual convention Saturday by electing W. J. Nixon of Bonners Ferry grand chancellor.

Other grand lodge officers elected were H. L. Poorman, Boise, vice chancellor; Ira C. Allen, Weiser, prelate; Wilbur Box, Cottonwood, secretary; Al E. Mayer, Genesee, treasurer; Homer Schooler, Genesee, master at arms; E. H. Farmer, Lewiston, inner guard; John H. Atcheson, Pocatello, outer guard; Ed Jessup, Cottonwood, tribune; J. M. Lampert, Boise, supreme trustee; and John P. Rose, Kellogg, director of the hospitalization board.

The Pythian sisters elected Bess Bayden of Bonners Ferry, grand chief; Louise Wernick, Weiser, grand senior; Pearl Plamondon, Boise, grand junior; Deann Morrison, Twin Falls, manager; Bernice Hays, Lewiston, mistress of records and correspondence; Lucy Cary, Weiser, mistress of finance; Rose Behan, Kellogg, protector; Winona Sleby, Genesee, guard, and Clara Bitter, Lewiston, press correspondent.

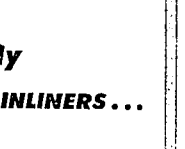

Five Graduate From Springdale LDS Unit

SPRINGDALE, June 14— Five members of the primary trailbuilders boys group graduated from the Springdale LDS church primary association recently. Diplomas were awarded by Mrs. Emmett Bleheron, president of the primary.

Graduates include Jimmy Bronson, Lowell Dayley, Gary Tegen, Dewayne Johnson and Marlow Yost.

Henry Believes Louis 'Cinch' To Defeat Walcott on June 23

Louis is fat. Louis is old. Louis is slow. Louis is tired, and Louis is weary.

Just the same Louis is going to win.

He will beat Walcott on June 22, when the two of them square off in a ring pitched atop second base at Yankee stadium.

How do I know? You have a right to ask.

I am not a boxing expert. The fact that I bathe, shave, and speak passably good English bars me from that distinction. To be a real boxing expert a man must cultivate the friendship of such sterling souls as Abe Attell, Tiger Flowers, Rocky Graziano, and Spider Something-or-other. There is always a "Spider" in boxing, and I just don't go in for that sort of thing. In short, to be a boxing expert, one must have strange people as friends, and I just don't happen to be that sort of a guy.

McLemore

I don't mean Dempsey, of course. A stand-up guy when he was born, and a stand-up guy when he dies, claye is written all over that face of his. Long after he has answered the final bell, and long after you have done the same, the word "Dempsey" will stand for manliness. Jack will march down the highways of time as the great example of the man who could take it, give it, and not fuss. There will be flowers thrown on his grave, come bye and bye, but no towels.

By the way, I have been asked a thousand times what would have happened if Louis at his best (and he was at his best when he fought Schmeling the second time) had met Dempsey at his best. Dempsey would have knocked him out inside of three rounds. Because Jack not only could throw a punch—he could take one where the whiskers began and get up. Keep getting up, if necessary.

But back to Louis and Walcott.

Louis is going to win because it isn't in the books for Walcott to whip him two times in a row. Walcott whipped him the last time, and don't let anyone tell you different. Walcott whipped him all the way, and if Walcott had been any color but black, the championship would have been his. If he had not been given the title, the New York fire department still would be spraying the ashes of Madison Square Garden. The customers would have burned it down. Not a pretty thought, but true.

Louis didn't try too hard the last time he fought Walcott. As a matter of fact, if Louis weren't so highly thought of, both as a fighter and citizen, he would have been booed near booed out of the ring. I even heard some folks say they thought it was a barney, which is fight talk for a phoney.

I don't believe that. But I do wish that Joe, the champion, would throw at least one good right hand this second time out against Walcott. He didn't during the first fight. I think he owes it to the customers to uncork that right—the best ever thrown by any fighter—this time.

Wallace Asks Aid In Platform Draft

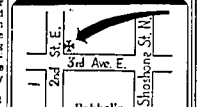

NEW YORK, June 14 (U.P.)—The national Wallace for President committee today had invited "ordinary Americans" to help the third party write its platform at its convention next month.

Rexford G. Tugwell, provisional chairman of the platform committee, announced that hundreds of organizations had been asked to send representatives to pre-convention committee sessions.

The sessions, which will be open to the public, are scheduled for July 21 and 22 at Convention hall in Philadelphia. The convention to nominate Henry A. Wallace for President will open in the hall July 23.

SUMMER VACATIONS

SHOSHONE, June 14 — George Powell and Mr. and Mrs. Lee Kelley, students at the University of Idaho, Moscow, have arrived home for the summer vacation.
